PREFACE

Dear readers,

We would like you to have a look at the map of Europe and its surrounding attentively.

Can you find there at least one country where the majority of its population are not the natives living on their land for thousands of years, but are just newcomer foreigners?

There is not any country in Europe of such kind. However, there is such kind of State out of Europe. It is in the territory of Asia, not far from Europe, on a peninsula called "Asia Minor". It is the land of ANATOLIA where the Turkish State, having no background, is situated. It was founded in 1923.

Most of the population in the cradle of civilizations and Christianity Anatolia were Christians in 1915. From 1915 to 1923, the Turks annihilated all the Christian population of that land. Millions of Christians were killed, the others were exiled and deported, and the rest converted to Islam. In 1923, the 99,9 % of the population in Anatolia was already Islamite. One can never find any analogies in the history of humanity with those kinds of massacres and anti-ethnic actions of annihilation, which took place at the beginning of the 20th century.

At the end of the 11th century, a tribe of ten thousand Turks came from the steppes of Central Asia. The natives of Anatolia were the Greeks and the Armenians. There were no Turks in Anatolia until then.

It was only circa the end of the 11th century, when the Turks started advancing on Anatolia due to their ferocity.

After a few centuries in 1453, they occupied Constantinople and destroyed the Byzantine Empire. Going on with the same ferocity, they reached the gates of Vienna, but the Christian Armies united and defeated the Turks decisively. After that the Turks retreated.

If in 1876, the Russian army occupied C.Polis, it would certainly collapse the Ottoman Empire and the Turks would be sent to the steppes of Central /Middle/ Asia. However, the international organization of the financial barons prevented it. The western countries began the process of recovering the Ottoman Empery, which had been called "A Sick Man" by them.

Why did they do it?

They did it in order to create obstacles for Russia in the way to the Mediterranean Sea.

The Turks of Anatolia served as a shield against Russia.

The international organization of the financial barons stood under the veil of that program and the Turks carried out that program in three stages:

1. The Turks took advantage of the First World War and committed the Armenian Genocide.

2. Circa 1919, the Greeks of Pontus, the Assyrians, and other Christian nations of Anatolia were massacred.

3. Until 1923, the Turks terminated all the Greeks in Anatolia and also all the Armenians who had survived the Armenian Genocide.

In the sequel of that terrible program, the Turks terminated all the Christian population of Anatolia, which formed the majority of the population in the beginning of the 20th century. Thus, they established the so-called new Turkey with 99,9% of Muslim population in 1923. All those ethnic terminations were committed in broad daylight before the eyes of the western countries, which pretended to be / as if / the apostles of humanity in the world.

When will the reality be revealed and unveiled?

When will those, who are reprehensible, bear the responsibility of the consequences?

It is meaningless to speak about justice in this world if the world leaves Turkey unpunished.

This book is a challenge to that terrible unjustness. It is a rebellious yell against all those sufferings inflicted on the Armenian nation.

TURKOMANIA

"We established a world conqueror Empery of a tribe," said NAMUK KEMAL in 1888.

Just put NAMUK KEMAL'S words in your pipe and smoke it.

You were a barbaric tribe from the steppes of Central /Middle/ Asia when you invaded the cradle of civilization called Anatolia. You violently spread terror among the natives of the land and only due to your brutality, which lasted centuries, you settled in the lands of Anatolia. Since then, you have been the same barbarians.

You are the savages who exterminated the cradle of civilization Anatolia and committed barbaric massacres against the native peoples of those lands.

TURKOMANIA

ECHEVIT called the Armenian Genocide "an imaginary genocide". Nevertheless, he himself is the greatest master of imaginary lies. He dedicated poems of goodwill to Greeks in 1950's, but in 1974 by order of his teacher KISSINGER, he attacked Cyprus and caused death to thousands of Greeks. All Greeks were condemned to mourning. Eventually, the

Cyprus cutthroat ECHEVIT called the tragedy "Action of Peace".

I wish the butcher ECHEVIT studied History, to learn that the Greeks and Armenians had been the original natives of Anatolia. However, today neither Armenians nor Greeks live in the land of Anatolia. What happened to them? A liar like him massacred them.

TURKOMANIA STOLEN MOTHERLAND

The Armenian people who used to live all the known period of the history, that is more than three thousand years, in their native land of Eastern Anatolia, were terrorized and forced to change their religion and eventually were Islamized and turned into Turks. Part of them who didn't accept Islam were exterminated by you, the other part had to leave their native lands and escape to Western Anatolia, Thrace and other places and had to settle there.

The cruelty against the Armenian nation started in the eleventh century and lasted until the very beginning of the twentieth century. Circa April 24, 1915, taking advantage of the chaotic situation of the First World War, you committed genocide against the Armenian nation starting from ETIRNE to VAN and with its wildness, that genocide hasn't had any analogies in the history of humanity. Nevertheless, those who committed the Armenian Genocide are still unpunished, because the western countries used to support you as they always contended with the Soviet Union. Now 85 years after the Armenian Genocide you call it "an imaginary genocide". How dare you say that! The author of all that falsehood is the fascist, nationalist Turkish government.

If there is anybody among you who wants to know the truth, let him read the book "THE ISLAMIZATION OF ANATOLIA AND HOW IT BECAME TURKISH", which was published in Constantinople by the Publishing House "TOKER", in 1971.

The reality can't be hidden forever.

TURKEY - STATE OF UNPUNISHED MURDERERS

When France recognized the Armenian Genocide, you got confused and frustrated. You were yelling and threatening insanely. It is called "Complex of Guilt". You do feel guilty, because you know perfectly how severely brutal you have acted against humanity. That is why you are always in the state of panic.

Once CHELAL BAYER said, "Either Armenians or we had to leave. We had to get rid of Armenians".

Do you understand what these words mean?

The so-called State of Turkey achieved its position due to the Armenian Genocide.

You subjected the Armenians to genocide and stole their Motherland. Now you have to pay for it, and you will certainly be punished.

TURKEY - THE MOST FEARFUL AND NATIONALISTIC STATE

Turkey is the most fearful and nationalist State in the world. You should certainly know "The March of Decade" /1923-1933/ dedicated to the tenth anniversary of the Republic of Turkey.

"We created 15 millions of young people of all ages in the last ten years."

How could you create them? Are you God? Naturally, you are not.

"Thanks" to the Turkish method.

President of Masons, "artful master" TALEAT PASHA, a Gipsy originally, subjected the Armenians to genocide.

MUSTAFA KEMAL, who had originally come from SALONIKA, terminated the Greeks and Armenians who had run away from TALEAT

PASHA. Then the Mason Greek VENIZELOS made a deal with you, and millions of the purest Greeks who had been forced to convert into Islam were forced to move to Turkey, under the pretext that they were Turks.

Then the purest Bulgarians, who had adopted Islam under pressure before and had been called "BOMIAKS", came to Turkey from Bulgaria like a water-full river.

Yugoslavian Serbs called "Bosnians", who had converted to Islam under pressure, came to you too.

A daughter of a Jew in Anatolia, whose name was HALITE EDIP, and who was an extremist Turkish, converted into Turks a hundred thousand Armenian children, who had survived the massacres. In addition to all these, the Turks threatened to kill millions of Armenians, if they didn't convert to Islam. But no matter how hard you try, you can never completely terminate the nation that has been present in its native land for four thousand years.

There is no getting away from the facts. In fact, this was how you created 15 million of young people of all ages in a decade.

FIREFIGHTER / TULUMBADJI / IZMAIL JEM

One can call the Jew Minister of Foreign Affairs in Turkey many nicknames, but the most fitting one is Firefighter /TULUMBADJI/. Do you know why? The reason is that his recent and the most important obligation is to extinguish the flame of the Armenian Genocide burning now here now there in the world.

Once it burned in America, then in Persia, later in Italy, and then in France.

After all, it burned in Switzerland.

Last year in October, for fear that the American Congress would recognize the Armenian Genocide, Firefighter left for America. There he tried to put out the fire with the help of his Jewish clansmen. They tried hard, but at last, he succeeded due to the sex maniac Bill Clinton. Then the fire jumped to Italy. Firefighter left for Italy at once, but it was too late,

and the fire had already spread all over there. The Association of Turkish Mass Media Ribaldry gushed out fire against Italy. Thereupon heaps of threats and oaths followed. What a shame! However, the foremost was the fire of the Armenian Genocide in France. "IZMAIL JEM & HIS COMPANY" worked hard and made a lot of efforts, but all for nothing. The fire had already reached the ceiling. We had never seen the Turkish Mass Media and Television Mafia so frustrated. What lies and what blackmailing! Guess who they were. They were the Armenian captives from C.Polis. They said, "It's not true. The Turks have done nothing to Armenians. The Armenians have killed the Turks". Where did they take all those lies? Who would believe them? Therefore, the deputy from Paris PATRICK DEVEDJIAN once said, "Poor Turkish Armenians!"

Firefighter /TULUMBADJI/ ISMAIL JEM recently performed "cleverness" in extinguishing the Armenian fire in Switzerland, and he managed to seize upon the job from the very beginning.

In January 25, 2001, he made a deal with the Minister of Foreign Affairs in Switzerland JOSEPH DEISS. What deal was that? You see, the richest from Turkey have invested their money in the banks of Switzerland. Nevertheless, ISMAIL JEM was in fear again, because he was sure that nothing could stop the deputy from Switzerland /a Greek, born in Constantinople/ JOSEPH ZISIADIS. In March 13, 2001, IZMAIL JEM could hardly avoid failure in Switzerland, 73 votes against 70.

We congratulate you, IZMAIL JEM from Salonika!

However, this is only the beginning of the process. Firefighter IZMAIL JEM, you are right. You should walk on eggs, because JOSEPH ZISIYADIS is an ardent young fellow. Who knows? It will probably be a difficult task to put out his fire.

IN MAJORITY YOU ALL ARE MURDERERS

What is the difference between the Jewish Holocaust in Germany from 1939 to 1945 and the Armenian Genocide in 1915 in Turkey?

During the Second World War the Germans /1939-1945/ gathered all the

Jewish people living in the occupied territories and put them into the camps in Germany and its surroundings. The so-called SS Police of those camps killed most of them. The German people did not take part in the slaughter carried out by the German SS Police. The slaughter of Armenians in Anatolia, in which all the Turkish people took part, and which lasted centuries, was concluded with the Genocide of April 24, of 1915. The Armenian nations' termination program that had been planned by the party ITTIHAT & TERAKKI a few years before, was put into action in April 24, 1915, due to the chaotic situation of the First World War.

Besides the Armenians, a great number of Europeans lived in Constantinople and IZMIR. It would not be considered smart to organize massacres in broad daylight, before them. Therefore, all the Armenians from ETIRNE to VAN were given 48 hours to leave their homes and eventually were deported. They were forced to set off and were expelled to the deserts of Syria. While the long caravans of Armenians were trying to go forward, the murderers and brigands, who had just been released from the Turkish prisons, were sent to attack them. The deportation of Armenians from the cities, towns, and villages of Anatolia always turned into massacres, because the wild supervisors from the party ITTIHAT & TERAKKI provoked the Turkish people. The absolute majority of the Turks, unlike the German people, took part in the Armenian Genocide in 1915. The scenario applied by the Turks was the following:

The Turks, under pretence of deportation, ejected the Armenian population from the cities, towns, and villages of Anatolia. On their way the Armenians were attacked by their Turkish neighbors, hidden in the canyon, and all of them including women, children and old people were savagely slaughtered. The raiders killed everybody, afterwards marauding the corpses.

This was the scenario devised by the party ITTIHAT & TERAKKI, which was performed in 1915 permanently. Until recent years the savage Turks, who had committed all that brutality, used to boast about their "prowess". They have been proudly telling their children and grandchildren about their "thrilling adventures", as hunter's stories. Those stories were about how every Turk had beheaded at least fifty or sixty Armenians. Sometimes one could see Turks rivaling each other and boasting that they had beheaded at least five hundred GYAVOUR Armenians. They used to do it, because nobody had been punished, because the awful massacres

haven't been indicted yet.

We met old Turks personally, who had taken part in those massacres and before dying, they were under hallucinations, crying as those Armenian children slaughtered by them.

Here, with gratefulness, we should certainly remember all those Turkish families, who were kind enough to save their neighbors and to shelter them. In fact, there were these kind of humane Turks too. However, they were one out of a thousand. Now, you Turks are denying the Armenian Genocide, and you will probably do it until the end. However, wait about, and you will see that the last unpunished State of brigands will not long live.

N 9

"NAIRI", April 24, N146

THE BEGINNING OF THE ARMENIAN GENOCIDE ORGANIZED BY THE EMPIRE OF BRIGANDS – OTTOMAN TURKEY

The Turkish State of brigands started the execution of the death sentence in April 24, 1915.

Turkey began the Armenian Genocide on that very day.

You, savage Turks, you are world champions in cutting heads, because you understand that nobody can live without a head.

Who is the head of a nation?

They are "the leaders, the writers, the intellectuals."

Therefore, in order to terminate the Armenian nation, first you had to exterminate its leaders, writers, and the intellectuals, and leave the nation without Head.

Therefore, you arrested all the Armenian leaders, writers, and intelligent Armenians of Constantinople at night in April 24, 1915, exiling them to CHANGHRE and AYASH, and all of them were killed there one by one.

This was how April 24, 1915 started. Later it became easier for you, because the nation had lost its Head.

All the Armenians, old and young, women and men living in the cities,

towns, and villages starting from Thrace to Anatolia, from ETIRNE to VAN, were expelled under the inspection of gendarmes to the deserts of Syria. They were ejected like sheep, hungry and exhausted. Eventually, they were all killed and slaughtered by order of TALEAT PASHA, Minister of Internal Affairs of Turkey. No country could have committed such a brutal massacre as the Armenian Genocide in 1915 was. There has never been any analogy in the history of humanity. Neither CHINGIZ KHAN'S nor TEMUR LENK'S brutality can be compared with what you did during the Armenian Genocide in 1915. Hence, you can proudly win the title of "The Most Terrific Butcher-State" in the world. However, the most terrible thing for the Armenians who survived the Genocide of 1915 is that you are still unpunished, and have not yet paid for the bloody massacres you have committed. If you stay unpunished in the near future, then it will be meaningless to speak about justice in this world. In that case, we shall have to hope for divine justice. If there is God, be sure that the Turkish State, which is "a spot on the face of humanity", will certainly be subjected to a deserved punishment, and the justice will prevail.

**EFFENDIS, GLUT, GLUT EVERYTHING
UNTIL YOU BURST.
AMERICAN GYAVOUR'S BILLIONS
OF DOLLARS ARE GRANTED TO YOU**

Congratulations to KEMAL DERVISH, Minister of Economy. In April 27, 2001, he again managed to snatch ten billion dollars.

A few months ago, at the end of 2000, America granted ten billion dollars to you. What has become of those billions of dollars? We got it! "HOB, HOB, SHARALOM"! "They flew away".

From jugglers only CHAVIT CHAGHLAR'S name is in everybody's mouth. So, what you think? He has escaped to America.

Where are the other jugglers? CHAGHLAR could not have surfeited all those billions alone. Are you so naïve? Don't you know the saying? - "The State is full of goods. If you don't make a pig of yourself, then you

are a pig."

To tell the truth, you shouldn't stir it up or the "dirt" will rise to the surface and cause quite a stir.

However, it is quite enough. In March 2001, the currency rate of dollar increased from 700.000 to 1 million 2000 liras. Turkish lira lost the 70% of its value in a day. As far as we know it is called bankruptcy. It was even worse than bankruptcy. Then a storm, a tornado followed. "We are sinking!" "We sank".

SOS. SOS. SOS...

Wish we had America again!

America, save us, and we shall do everything you want. The National Assembly is going to adopt the "amendments" you want.

Then everything turned to be OK. We did it, MASH ALLAH! KEMAL DERVISH managed to persuade the Americans. "Long live GYAVOUR Uncle Sam!"

Notice that ten billion dollars are in KEMAL DERVISH'S pocket at last. "Now we can close our old notebooks and open the new ones".

What we told was the official side of the matter. It was only the one side of coin. What is the other side of it?

Have you ever heard about Archfiend? Our folks used to scare the children to make them behave properly. They used to say, "If you don't do it, then Archfiend will come". Now Turkey does the same with America. When they want to scare America, they say HAZBULLAH is coming into power. In order to prevent HAZBULLAH'S coming into power, America grants billions of dollars to Turkey.

The story is thus much clear to understand.

Between you and us and the bedpost, America is not very much afraid of the so-called HAZBULLAH. Actually, the American organization CIA has contended against the Soviet Union before, and is doing it against Russia and China now, thus supporting the fanatic Moslems. CIA is concerned over it.

America is concerned only about Israel because if the so-called HAZBULLAHS come into power in Turkey as it happened with Iran, Israel can't be safe and secure. This is what makes America worry.

This is what makes America grant billions of dollars to Turkey.

N 11

"NAIRI", May 22, 2002, N148

"AS IF TURKEY"- A STATE BASED ON LIES

While speaking about the Armenian Genocide you have said "As if".

You have the right to say that, because if you speak the truth, the so-called Turkey based on lies will certainly come to its end.

How could you be "Turkey"? How did you manage to be Turkey?

Actually, there wasn't any "Turkish State" in the world until 1920. It was called Ottoman Empire. Once it came to its end in 1918. The so-called "Ottoman Empire", based on massacres and looting, was to be cut off the body of humanity like a malignant tumor and thrown away, but eventually, you turned out lucky again. "Thanks to your lucky stars!"

The supreme interests of the Western countries, and the invisible "powers", which hold the bridles of those countries in their hands, prevented your death.

You got to your four feet again, and the phantom called "Turkey" rose from the coffin of the Ottoman Empire like a rabbit from the magician's box.

Your Forefather, / born in SALONIKA and registered as a Mason in the Macedonian Lodge/ showed up as the apostle of Turkism.

What orations and what speeches he performed! "Everything Turkish. All is Turkish! Turkey and perennial Turkey! Nevertheless, who is Turk? Everybody is Turk. You are Turk, even if you are Arab, or Kurd, or Armenian, or Greek. How lucky is the person who says, "I am Turk" ".

After all, it was magnified and injected into your bloodstream and you regained strength.

Your Forefather used to speak about the noble blood in your veins. Bullshit! What blood was he talking about? Is that "BOMIAKS" blood or "BOSNIANS" blood? Is that CIRCASSIAN or Albanian blood? What about the Armenian blood?

N12

"NAIRI", June 5, 2001, N149

THE OTTOMAN MAGIC

"How did you manage to establish a world conqueror State out of a tribe then?"

How did you do it? Long live the Ottoman Yataghan! "Either convert to Islam, or you will be beheaded." This magical sentence opened the gates of success for you, as it was in the tale "Open Sesame, Open".

It was hard for your captives to make a choice between "to be or not to be". Who could choose death over life? Not every mortal could do it. In contrast to them, thousands of Christians chose death and they were beheaded by yataghan.

Millions of poor people were not courageous enough and converted to "the real religion" Islam. Nevertheless, it happened. Everything can happen under the threat of death.

You advanced on Anatolia and Balkans and reached the gates of Vienna due to your policy of massacres and raids.

The BOSNIACS from Serbia, BOMIACS from Bulgaria, ARNAUTS from Albania are the bitches, the extramarital offspring of your yataghan.

Nevertheless, you had your game over in front of the gates to Vienna. After having been attacked by JEAN SOBIESKI, the king of Poland, in front of the gates to Vienna in 1683, you couldn't recoup, because your strategy based on slaughter and raid was bankrupted. You were not able to occupy other lands and so retreated.

It's impossible to change ones nature. You were used to cutting off heads with yataghan.

In 1809, in the Serbian town of NISH, you drowned in blood the Serbian people who had rebelled against your tyrannical administration, and then you built a "Tower of skulls" out of the heads of the Serbian patriots. Thus, you wanted to teach the Serbs a lesson in order to prevent other rebellions. After independence, the Serbians preserved that tower for decades, as one of the indisputable facts of your brutality. Today the tower of skulls, which is called "Tower of Cranes", is a holy place of pilgrim for the entire Serbian people. It is situated on the main avenue in the city of NISH. One can see a big sign, hanging over the entrance to the Tower of

Cranes in four languages English, French, Serbian, and German –TOWER OF CRANES, VA TOUR DES CRANES, and SCHADETURM.

Turks, if you happen to pass near that place, go and see the hand made stamp of your fearful brutality.

We visited it and saw the Tower of Cranes with our own eyes. We imagined what Tartarean chronic sufferings the Armenians had undergone in Anatolia for centuries.

We recollected April 24,1915, when you entirely terminated the Armenian nation through massacre. When we were standing in front of the “masterpiece” of the Turkish brutality, our eyes were full of tears and we declined our heads.

Turks, you are abject liars.

What excuses can you find for that Tower? Is it an “imaginary” Tower like the “imaginary” Armenian Genocide?

EFFENDIS, YOU SHOULD CERTAINLY GO BACK TO THE STEPPES OF CENTRAL ASIA!

Do you know the Ottoman history?

The soldiers of the Ottoman Army, that reached the gates of Vienna in 1683, were called JANISSARIES. Do you know who they were?

They all had been taken away by force of yataghan from Greek, Serbian, and Armenian Christian families, at the age of five. Those boys were circumcised and converted to Islam and were trained as Ottoman soldiers in special JANISSARY centers.

English historian ARNOLD TOYNBEE wrote in 1934, “Those Christian offspring JANISSARIES had completely forgotten their origins and had taken after the cruel natured Ottomans. While raiding into the lands of Greece, Bulgaria, and Armenia, those JANISSARIES mercilessly killed the people of their origin.”

You advanced and reached Vienna due to that very brutality.

REALITIES "UNKNOWN" TO TURKS

Greece was under your domination until 1820.

You had turned the most sumptuous cathedral in the history of Greece, the Parthenon of Acropolis into gunpowder storage. It exploded in 1687, and the pride of the Greek history Parthenon turned into ruins.

In 1820, during the Greek rebellion, you carried out so much cruelty that the famous French writer Viktor Hugo wrote the following lines in his poem "The Greek Boy"

"Turks passed that way, they ruined everything on their way, and everybody is mourning bitterly".

Do you know CAPPADOCIA?

Have you ever visited the churches built in the rocks there?

Have you seen the frescoes on the walls of those churches, which are considered the wonders of Byzantine art? Have you had a look at the pictures of Jesus and the Saints? We went there, and we were so devastated when we saw most of the eyes on the pictures carved out. They all had been destroyed by order of your fanatic leaders, only because they were GYAVOUR'S pictures.

Until 1923, you used to kill the people to whom those churches belonged. After that, you left your stamp of viciousness on the frescoes, which were real masterpieces of art.

The city of ANI has been much spoken about in your braggart and rowdy newspapers recently.

ANI was the capital of the Armenian Kingdom for thousand years A.D. The city has been historically famous for its 1001 churches. It has been called "A City of 1001 Churches". Today only one church is left there, but in ruins.

What happened to all those 1001 churches? You, savage Turks, you destroyed them, took their stones away or just burned them. The last churches were exploded in 1945 by order of your "national ruler" ISMET INONIU.

That "national ruler" had ordered, "No signs of Armenians must be left".

There were ten thousands of Armenian churches in West Armenia and in the cities, towns, and villages occupied by you. What happened to them?

As the great French writer Victor Hugo said, "Turks passed that way and ruined everything on their way, and everybody is mourning bitterly".

Emperor Constantine founded the capital of the Eastern Roman Empire and it was named Constantinople after him. The city was officially called Constantinople until 1930. In 1930, you renamed it "Istanbul". Actually, the name Istanbul is one of the versions of the Greek name "ISTAMBOLIL". You can change this name as many times as you want, but it's all the same, because it remains a "GYAVUR'S" city. You can destroy all the Byzantine monuments there. You can take away the creations of the Armenian great architect SIAN who was from the village AGHRNAS, KESSARIA, and who converted to Islam. Moreover, take away the palaces DOLMABAHCE, CIRAGAN, BCYLERBEYI, and many other monuments in ISTAMBUL, built in the 19th century by the PALIAN'S, a family of architects, whose creations are treasures. So, what will you have in the end? What will remain in Constantinople? Eventually, you will have a city of distorted and crooked concrete buildings.

You always spread fear and violence in the occupied lands. You destroyed the monuments, which were the pride of the history. You turned the prosperous places into ruins. You do not deserve the lands you inhabit now. As you were turned back from Vienna, Belgrade, Athena, Sofia, Baghdad, Damask, and Beirut, so, you will be, from the cradle of civilization Anatolia and Constantinople. You will have to go back to the steppes of Central Asia.

INCIDENT - A

**A STORY TOLD BY A FRENCH
SPECIALIST ON WOOL**

It was in 1948. A specialist on wool from France was invited to Constantinople by SUMERBANK. He came to Polis and then took a trip to the towns and villages of Eastern Anatolia with an agent from SUMERBANK to examine the sheep for the quality of wool. The French specialist and the agent went to the mountains where the sheep were grazing. On their way to the mountains, the French specialist heard sounds of explosions. He was very curious, so he went up and saw a Turkish officer and Turkish soldiers exploding Armenian historical churches. He asked the officer, "Why are you doing that?" The answer was, "We have been ordered by ISMET INONIU not to leave any trace of an Armenian here".

"NAIRI", July 31,2001, N153

INCIDENT -B

**A STORY TOLD BY A YOUNG
FELLOW FROM KESSARIA**

/This story was told in Turkish. We shall try to keep to it and be exact/
TALAS was a prosperous city in 1915. A great number of Armenians lived there. Greeks also lived there, but not as much as the Armenians did. The upper neighborhoods were completely inhabited by Armenians.

Only bakeries in the neighborhoods of TALAS ran to 26.

The GULBENKIANS were from TALAS /the famous millionaire GALUST GULBENKIAN "Mister Five out of Hundred"/.

The young GULBENKIAN went to Europe to study and when he became a millionaire, he wanted to build a church after his name. "I wish it to be a very beautiful church, no matter how much it will cost", he said. Thus, a very beautiful church was built. The builders used tough stones and after they placed the stones upon each other, they poured lead between them. The church had an extraordinary bell, and when it rang, the sound was heard in KESSARIA. It was made from bronze and gold. Later it was taken to the mountain ERCIYAS /near KESSARIA/. When the weather is misty and foggy, it is used to help the skaters to find each other.

The painter of the frescoes in the church drank wine for 105 gold liras and painted wonderful motifs and ornaments on the walls. In 1950's, a Moslem governor whose name was NAZMI TOKER came to KESSARIA and ordered not to leave any Armenian monument there and the church was exploded. As there was lead in the stones, it was rather difficult to destroy it.

However, now there is a park there instead of that church, and no sign is left, not even a stone. This is the reality.

However, my grandfather managed to take the GULBENKIAN'S gravestone from the yard of the church and bring it to our house. The gravestone is the only relic left from that church.

**A STORY TOLD BY AN ARMENIAN
YOUNG FELLOW WHOSE FATHER
WAS FROM SEBASTIA**

I was born in Constantinople. My mother originally comes from C.Polis as well but my father was born in SEBASTIA in 1904. I finished Lyceum in 1948, the year when ISMET INONIU was the "MILLI SEF" of the country. In 1948, the dictator leader suddenly became a democrat. You should ask how it happened, and I would answer, "Due to Churchill". ISMET INONIU was flirting with Germans from 1939 to 1943. If it were

REALITIES "UNKNOWN" TO TURKS

not STALINGRAD, Turkey would join Germany and would attack Russia through Armenia. The national ruler could not realize his goals, as

STALINGRAD did not fall and the Germans were losing the war. The national ruler had to turn to England. Churchill supported Turkey and had a concern in keeping Turkey away from Russia. Therefore ISMET INONIU started to carry out CHURCHILL'S instructions. On Churchill's first order, he declared war against Germany. But what war was that? The Germans were far away from the Balkans and were returning to Germany. Churchill just wanted the world to see Turkey allied with him. He ordered ISMET INONIU, "You must be democrat". Thus, the nation's ruler became "democrat" INONIU. It was like a show, a real performance.

However, Churchill was not naïve, he just wanted the world to recognize Turkey as a democratic State. Thus, the Russians remained without anything. However, that "democratic trick" turned to be useful for the "gyavours" in Constantinople. Before 1984, the people of other religions could not even gather garbage there, whereas now the "democrat ruler" granted the Lyceum graduates the title of "Officers in Reserve". Therefore, in 1949, I became an Officer in Reserve, and in autumn 1949, I earned a position in my father's native town SEBASTIA. The first thing I had to do was to go and see the Armenian Church my father had told me about. It had been turned into storage, but it was still very spectacular. The church, even greater than the biggest church in KALATASARA, / C.Polis/ had turned into storage. When I went there, I got confused and very upset; therefore, I went to the coffee shop in front of it, to have a cup of coffee. In a while, a group of soldiers and an officer came up to the church with tools. I watched them removing the goods out of the church, and I realized that they were going to blast the church. I could not stay there any longer, so, I left. I went there again a week later to see what was going on, and what happened to the church. I saw the soldiers still working there, but the church was still standing. They were working hard, but they could not manage to take out even a stone from the walls of the church. As I was wearing an officer's uniform, I had the dare to approach the commander and ask why they wanted to blow the church. The officer answered that it was dangerous to leave the church in that condition, because it was going to collapse soon. Hearing the answer, I could not help yelling, "what shameless people you are. I have been watching the soldiers since last week, you could not manage to take out even a stone from the church, and

now you say that it is dangerous to leave it. Fear God! What liar you are.” I went away and did not go there any more. When I finished my service a few years later, I was told by one of my clients that the church, which had always been one of the most magnificent Armenian churches, was destroyed in April 1950.

INCIDENT -D

**A STORY TOLD BY A YOUNG FELLOW
FROM C.POLIS WHOSE NAME
WAS VARDAN**

In 1947, I was in the last class of Lyceum. After my father's sudden death, I had to support my family and left the school. I started working in my father's business with my elder brother, and 6 months later, I was called up to join the army. So, I was sent to Mush from the east. I had heard about Mush from my father. He had told me that Mush had been a prosperous Armenian city. Thus, I took my office in the garrison of Mush. Our commander was MUSTAFA YALIN. He was a tough officer; he never smiled and always lashed the soldiers for every trivial fault. As I was the most intelligent one among the soldiers, he always ordered me the hardest tasks.

The climate in Mush was not severe compared with other eastern states so, I used to spend my free time in the market. There was a cafe in front of the market where I frequently visited and chatted with the citizens. When they realized that I was Armenian, they stayed away from me. However, later sometimes the tension loosened and we became closer. I was told that there was a very famous church called MSHO SULTAN SAINT KARAPET in the mountains of MUSH. It was also mentioned that it had been a holy place of pilgrimage for Armenians who had lived there for ages. According to what the Turks told me, the monks of the church had established an agricultural center there. They also told me that the milk had been brought down from the mountains through special pipes, and had been taken to Mush in special containers. I asked an old man from Mush whether I could see the

church. He said, "After Armenians left, /that is after they were massacred / the church was abandoned, and it still exists on the top of the mountain".

Once the commander called me and said that I had a very important job to do that day. "What job is it?" I asked. "You will see," he answered. Therefore, he took the soldiers and me to the mountains. The soldiers drove there by trucks, while the commander gave me a ride in his Jeep. After having driven an hour, we reached a citadel, where we stopped. A minute later, I understood that I was standing in front of the church SAINT KARAPET. The commander said that ISMET PASHA had ordered to blast the church. I was astonished and confused, but I had to implement the order, and with great devastation, I took part in the demolishing of those beautiful churches. When we finished, I looked at the commander. The man, who had never smiled, was laughing now with self-content. He had demolished the Armenian churches through an Armenian. Ten years have past since that day, but I can never forget it, and every time I remember the ruined churches, I feel my tears going down my cheeks, and I curse MUSTAFA YALIN and especially ISMET INONIU forever.

COMMENTARY ON FACTS

It was in 1945.

The victory of allies over Germany was closer, so in February 1945 Stalin, Roosevelt, and Churchill gathered in Yalta and traced a new map of the postwar Europe. Roosevelt accepted the proposals made by Stalin without paying attention to Churchill's murmuring. It should have been taken into consideration that 20 million of Soviet people fell victims to the war. The most important decisions for Armenians, made by the Conference convened in Yalta, were the following,

1. Turkey shall allow the Soviet Union to cast anchor in channels.
2. KARS and ARDAHAN shall be given back to Armenia.

Unfortunately, Roosevelt died in April 1945, and the new President Truman rejected those two decisions in August 1945, in Potsdam.

As a counter claim, the Soviet Union dropped a Note to Turkey and

demanded permission to cast anchor in channels and to return KARS and ARDAHAN. Truman supported Turkey saying that America's borders started from KARS.

Therefore, the Russians could not insist on going forward. In those years, America had the atomic bomb, but the Russians did not have any. The national leader ISMET INONIU took breath, but he felt a deep apprehension for the future. "What if America changes his mind and another President, who is fond of the Soviet Union, wins office? What if the representatives of UNO visit Eastern Anatolia and see the Armenian churches? They will guess at once that the Armenians have been the real natives of the land. That will be perilous for us", he thought. "What can we do?" Thinking a little he added, "EUREKA". Thus, he found the solution.

"The Armenian churches should be destroyed, and no sign of Armenians should stay here", and he did it. So a few months later, the best historical churches were undermined by his order. The stories about the Armenian churches, told by witnesses in NAIRI, were the results of ISMET INONIU'S deep anxiety.

An accident happened in 1948, which made INONIU think that things looked black.

In 1933, after Hitler came to power, a great number of German-speaker Jewish professors came to Turkey. A few among them were against Hitler. One of them, whose name was ERNST DIETZ, was delivering lectures on History of Art at Academy of Art. Prof.ERNST DIETZ published a book entitled "Seljuk Art" in 1948. After the publication of the book, the police gathered all the volumes putting them under a ban. The author was dismissed from the Academy, because he had had the dare to write, that Seljuk Art had been the continuation of Armenian Art. All those actions were carried out by order of ISMET INONIU.

ISMET INONIU mopped up the Armenian churches to hide the Armenian trails, and then he took out his revenge on the professor who had considered Seljuk Art to be the continuation of Armenian Art.

YOU TURKS, YOU DENY THE ARMENIAN GENOCIDE

You have the right to do it, because slaughtering Armenians have been an ordinary thing for you, because you have been used to slaughtering them like sheep, stealing their wealth, kidnapping their girls and women for centuries. You Turks, if you don't know the truth about the Armenian Genocide, ask your fathers about it secretly. They will proudly tell you how they have massacred Armenians, or you can just read YEASHAR KEMAL'S novel "Inche Memed?" In that novel, two rich men from ADANA speak to each other. One of them says, "You snatched the Armenian KARAPET'S property". The other answers, "What you snatched from the Armenian GRIGOR cannot be compared with it". Today's Anatolian Turks are wealthy due to those Armenians who were robbed and killed during the massacres. We know thousands or ten thousands of facts of that kind. The reality of the Armenian Genocide is revealed and is unfolded to everybody. The Armenian Genocide is an open book, and you Turks, are too far from being veracious about that reality, because you have always given a false color to that reality.

"THE FAITHFUL NATION OF ARMENIANS"-1

Dear and no dear Turks!

Have you ever heard the expression "The faithful nation of Armenians"? Your bloodthirsty dictator Sultan ABDUL HAMMID used it in 1876 to appreciate the faithfulness of the Armenians to Turkey. Whereas all the nations like the Greeks, the Bulgarians, and the Serbs living under Turkey's domination, rebelled one after another against Turkey and gained their independency, the Armenians remained faithful to Ottoman Turkey until the end.

In 1876, the Russians reached the gates of Constantinople,

AYASTAFANOS / today's ESHILKEOY /

The Russian Army also liberated most of the territories in Western Armenia and reached ERZRUM.

The Armenians were to get rid of the Turkish burden as the Bulgarians, Serbs, and Greeks had done. Patriarch of Armenians in C.Polis NERSES VARJAPETIAN played a ploy on Armenians and released a Decree /Kondak/ to show his faithfulness to Turkey. The released Decree was to be publicized in all the Armenian churches. It said, "To defend Ottoman Turkey means to defend Armenia, and even its religion, schools, possessions, family, honor, and life." He called the Armenians upon fighting against the Russians together with the Ottomans. Premier Minister of England of that time Jew BENJAMIN DIZRAELI took the chance and dropped a Note to Russians and thus made them retreat. Consequently, the island Cyprus was gratefully presented to him by Sultan HAMMID.

Thus, Armenians proved their faithfulness to the Ottoman Empire and stayed the most devoted nation there until the end.

How did you Turks, appreciate this sheep- like devotion?

You took advantage of the chaos, resulted from the First World War, and slaughtered the Armenians. You committed the Armenian Genocide.

"THE FAITHFUL NATION OF ARMENIANS"-2

FAITHFULNESS & TREASON

In the beginning of the nineteenth century, the so-called Ottoman Empire based on raids was coming to its end. The Europeans called Turkey "A Sick Man". The western countries began to cure that "Sick Man" by confronting Russia and setting up barriers for his advance.

In 1839, after Sultan ABDUL MECHIT, Eparch MUSTAFA RASHID Pasha started the period of the so-called TANZIMAT reforms by releasing a Decree /Kondak/ called KIULLHANNE. It provided equal rights for Islamite & non-Islamite people. Armenians believed in those reforms. They forgot all the ugliness they had come across due to Turks before and

became more Ottomans than the Ottomans themselves were.

With great inspiration, they made efforts and did their best to restore the Ottoman Empire. Open the historical chronicles and read. You will see that the Armenians were leading in every field by then. The first factory of gunpowder was founded by TATIAN. The Mint was modernized by PEZJEIAN. The PALIANS /family of architects/ built the Palaces in C.Polis. The Academy of Arts and the Museum of Archeology were founded by ERVAND VOSKAN. The founder of the first theatre was JACOB VARDOVIAN /GULLU YACUP/. Post was founded by ERVAND MARTIKIAN. The Academy of Agriculture HALKALI was founded by Armenians. The printing houses were founded by Armenians. Mass Media was founded by Armenians. The Armenians were the founders of the architecture and other fields.

Naive and faithful Armenians worked hard to create a powerful Ottoman Empire.

Turks, what did you do in appreciation of the support you had received? How did you repay the Armenians?

In reward for it, you recompensed with your unfaithfulness & your greatest treason – The Armenian Genocide in April 24, 1915.

Do not forget April 24, 1915, the year when you terminated the Armenian nation.

FAITHFUL NATION OF ARMENIANS - 3 TREASON AGAINST FAITHFULNESS

The Masons and the apostates from SALONIKA founded the Organization "Young Turks", which won Constantinople by assault in 1908. ABDUL HAMMID had to declare "Constitution" again. The "Young Turks" took the power, and "declared liberation". C.Polis celebrated the event happily; the khojahs, the monks, and the rabbis embraced one another like brothers. The leaders of the organization were NIAZI, TALEAT, ENVER, and JEMAL. One of the most famous Armenians of that time GRIGOR ZOHRAB, a writer & a lawyer, was TALEAT'S best friend.

The feeling of liberty did not last for long. The reactionary forces and the fanatics rebelled, occupied C.Polis, and began chasing the "Young Turks" for vengeance. TALEAT and his friends had to escape and to find shelter. GRIGOR ZOHRAB and his friends sheltered TALEAT and his group, hid them, and saved their life. After a while, the forces from SALONIKA prevented the rebellion of the reactionary forces. ABDUL HAMMID was deposed from the throne and was exiled. "Liberty" came back.

GRIGOR ZOHRAB and his friends worked hard and did their best to favor the Ottoman Empire.

The Ottoman Empire stopped being the once "Sick Man" due to GRIGOR ZOHRAB and his friends who made a lot of efforts to help Turkey regain its footing. The navy was reformed.

The "Young Turks" allied with Germans and they got Turkey in the war in 1914. Then taking advantage of the turmoil in the world, they organized the Armenian Genocide.

The head of Freemasons the "great master" TALEAT PASHA took "good care" of his "sworn brother" GRIGOR ZOHRAB who had saved his life before. He exiled ZOHRAB to ADANA and there a CIRCASSIAN ACHMET killed him.

"FAITHFUL NATION OF ARMENIANS" - 4 TREASON AGAINST FAITHFULNESS

In October 5, 1915, a report was sent to the Premier Minister of Germany in Berlin from Attaché of German Embassy in Constantinople FREIHERR K. VON NEURATH.

Who was FREIHERR K. VON NEURATH?

He was a brother in arms with Hitler. He was the commander of Czechoslovakia in 1939. In 1946, the NUREMBERG TRIAL sentenced him to 15 years of imprisonment.

In that report, VON NEURATH informed the Premier Minister of Germany, "Doctor RUBEN SEVAK'S German wife tried to release her husband. The Sheriff of Polis refused to release RUBEN SEVAK from

exile and submitted the following grounds for his rejection. "Doctor RUBEN SEVAK is one of those intelligent people who has great influence on masses".

Who was RUBEN SEVAK?

He was one of the best Armenian poets and writers and had graduated from the Medical University in LAUSANNE. From 1911 to 1914, he worked as a doctor there. When practicing in LAUSANNE, he treated many famous people, pashas, and ministers from Turkey and did a lot for them. Those pashas and ministers were very grateful to him. They used to say; "If you come to C.Polis, you should come to our palace and stay with us".

RUBEN SEVAK returned to Constantinople with his family in 1914, and worked there as a doctor.

Turkish deputy SALAM CHIMCHOZ was his closest friend.

In April 24, 1915, TALEAT PASHA and his group began the Armenian Genocide with exiling the intelligent people of the nation to Anatolia. RUBEN SEVAK was banished to CHANGHRE. His German wife did her best to make them release her husband, but in vain. She appealed German Ambassador VON DER GOLTZ PASHA, who himself appealed to those grateful pashas, ministers, and especially to SEVAK'S closest friend SALLAH CHIMCHOZ. However, nobody could help RUBEN SEVAK. In August 26, 1915, the robbers led by the representatives from the party ITTIHAT & TERAKKI in CHANGHRE, violently killed doctor RUBEN SEVAK on the way from CHANGHRE to AYASH, not far from GALECHIG, near the village of TIUNEY.

TRAGIC LOVE STORY

During the Armenian Genocide in April 24, 1915, RUBEN SEVAK was exiled to CHANGHRE together with many Armenian intellectuals. All of them were arrested there in the hall of a garrison. A week later, they were allowed to go out and to rent a house on condition not to leave

CHANGHRE. Doctor RUBEN SEVAK rented a house with his friend. In those days, it was rumored that there was a European doctor among the exiled people. After a short time, everybody knew RUBEN SEVAK, and he was busy treating the Turkish patients day and night. He performed miracles while treating them. Therefore, the people of CHANGHRE started to worship him, and he was treated like an idol. Once he was called to a patient who was a daughter of coachmen's supervisor. The girl was completely cured after a few weeks, but she remained very sad. When her father, whose name was IZMAIL, asked the reason of her being sad, she did not want to answer at first. After all, she confessed that she had fallen in love with the doctor. The girl also said that the doctor did not have any idea about it. The father was confused. However, as he was very much fond of his daughter, he called the doctor the next day, and told him about his daughter's passion and added that all the Armenians were going to die sooner or later, and if the doctor converted to Islam and married his daughter, he would be able to save him. It was the only way the doctor could avoid his death. However, RUBEN SEVAK answered that he was already married and he had a wife and two children, but the Coachmen's supervisor ISMAIL answered that it did not matter at all. "Our religion allows us to have many wives. So think it over and tell me the answer tomorrow," he said.

RUBEN SEVAK told about this conversation to his closest friends. Everybody advised him to convert and to marry the girl, for it was the only way to save his life. However, RUBEN SEVAK said that converting to Islam would be a disgrace for him and refused to change his religion.

In August 26, 1915, RUBEN SEVAK with his four friends was sent to AYASH under the inspection of soldiers. On their way, the robbers led by JEMAL OGHUZ, who was the representative of the party ITTIHAT & TERAKKI in CHANGHRE, closed their way to the village TUENEY, near GALECHIK. At first, the soldiers wanted to appose the robbers, but the officer who was from SALONIKA, did not allow them to do it. The robbers bound Doctor RUBEN SEVAK and his friends to the trees and violently murdered them. ISMAIL, whose daughter had been treated by the doctor and was in love with him, was amongst those robbers.

FAITHFUL NATION OF ARMENIANS - 6 TREASON AGAINST FAITHFULNESS

IMPRESSIONS AFTER VISITING DOLMABAHCE PALACE IN POLIS

Ten years ago, an Armenian Archbishop, one of the Armenian religious leaders of Europe visited DOLMABAHCE Palace in C.Polis as a tourist. He visited there with a group of tourists from France. A Turkish guide accompanied them to the palace telling the history of the palace in French. He said, "The palace was built in the nineteenth century by the Italian architect PALIAN". When they went through the halls, they saw a big painting by AYVAZOVSKI on the wall. The guide said, "This is a painting by the Russian artist AYVAZOVSKI". They went on watching the palace, and when they came up to a porcelain heater, the guide noted that a Turkish master had made it. At that moment the Archbishop could not help interrupting the guide and said, "Now listen to me, Effendi. Moreover, if you don't know, please learn. An Armenian master made this heater. Look and read. He has left his name on the heater. A few minutes ago, you said that the Russian artist AYVAZOVSKI painted the marine pictures. That artist's name is HOVHANNES AYVAZOVSKI, and he is a real Armenian artist. You also said that the architect of this palace was an Italian, whose name was PALIAN. That architect was also an Armenian. An Armenian family of architects, the PALIANS, built all the palaces in C.Polis. In addition, the person who has dared to tell you all these, is an Armenian Archbishop. Now, did you get it? Don't lie any more."

Turks, you intruded on Anatolia in the eleventh century due to the Armenians.

In 1071, you won the battle against the Byzantines in MANAZKERT /you have distorted its real name, and now it is called MALAZKIRT/, all owed to the Armenians.

The Byzantines had been dominating in Armenia /Eastern Anatolia/and it had been under permanent religious and political pressure for centuries.

Thus having been in long lasting struggle with Byzantium, some Armenian self-sufficient princes turning their back to them, waited for your help hopefully, thus digging their graves by their wrong strategy, which helped you to conquer the Byzantines in MANAZKERT in 1071. You entered Anatolia due to the Armenians and occupied it entirely in a few centuries only because of your brutality. Since then and until April 24, 1915, you had been milking the Armenians as milky cows. Therefore, in April 24, 1915, you sent the faithful Armenian nation to the slaughterhouse for lack of milk.

Males of all ages, living in the town of GALECHIK, were taken to ENKIURI / distorted "ANKARA" / on the pretext that they were going to serve in working brigades there. Therefore, they set out for ENKIURI on foot, under the inspection of gendarmes. There was a man among those people, whose name was NERSES GABRIELIAN, who had four children and a wife, VARDUHI GABRIELIAN. A few days later, VARDUHI met one of her husband's employees, a Turk Mustafa. His family was poor and VARDUHI'S husband had always helped him. When MUSTAFA approached her, she noticed her husband's ring on his finger. At that moment, VARDUHI realized what had happened to her husband and to all those Armenians that were taken away. It became clear that on the way to ENKIURI the Armenians had been attacked by their neighbor Turks and had been killed. The woman began crying hysterically and eventually fainted.

THE TRAGIC ACTION CALLED "20 CLASS" DURING THE SECOND WORLD WAR

It was 1942 and the Germans had advanced on the heart of Russia. LENNINGRAD was in blockade. The German Army was under Moscow, and the most troubling was that they were going forward to the Caucasus, and STALINGRAD was nearly to its fall.

The Turks were celebrating the loss of the Russians with whom they had been in confrontation for centuries.

By that time, the so-called "MILLY CHIEF" ISMET INONIU ordered to exile all the male Armenians, Greeks, and Jews, at the age 25 to 45 on the basis of enlistment. The action was called "20 Class". The people were all sent to the other part of Anatolia.

Those called-up people have personally told us many sad stories about

the tragic actions against them, and we shall tell them to you now.

One of them said, " I can never forget those horrible days we lived in fear of threat and death. The soldiers, with weapons on their shoulders, gathered us in a big field, which was like a bowl. We were all surrounded with machine-guns. One day, an officer with a grotesque face, stood on the cart and began threatening us, "You will never see C.Polis again. Only your corpses can leave from here." After those words, we could not even sleep at night, and the days were full of torture. One day incredible rumors spread that we were to be taken back to Polis again. The next day we learnt and understood what had occurred. The Germans had lost the battle in STALINGRAD and the German soldiers in the head of Marshal PAULUS had been captured. Thus, we were saved due to the Russians' victory in STALINGRAD. If the Germans had won, STALINGRAD, Turkey would declare war against Russia. That was why the officer with the horrid face told us that we could never see C.Polis again. In case the Russians lost, we would have all been terminated in that bowl.

WHAT IS THE DIFFERENCE BETWEEN A TURK AND A WILD ANIMAL?

A WILD ANIMAL KILLS ANOTHER ANIMAL ONLY WHEN HUNGRY, WHILE A TURK KILLS A HUMAN BEING JUST FOR FUN AND SELF-CONTENT

It is completely needless to present facts proving that the Turks are wild and savage but if you want, we can start from the symbols of brutality CHINGIZ KHAN and TAMERLANE and then pass to the brutal Ottoman sultans, such as FATIH SULTAN MEHMET, YAVUZ SELIM & SULTAN SULEIMAN. All those sultans were not satisfied killing only the Christian people so they killed all those Moslems who they considered to be their rivals, and they even killed their brothers.

Let us remember the latest barbarians.

SULTAN ABDUL HAMMID was the terminator of the Armenian nation.

EPARCH TALEAT PASHA and the others were the authors of the Armenian Genocide. There were so many barbarians of that kind in the history of this nation that we can lose count. Brutality runs in their blood. The gene of a killer is in their chromosomes.

Now let us come back to the famous words of your famous poet NAMUK KEMAL.

"We established a world conqueror State of a tribe!"

How many people can a tribe have? It can have at least 10.000 people. Consequently, you came to the cradle of civilization and Christianity, to Anatolia with 10.000 of nomads. Today there are only 60.000 Christians left on the land stolen from Armenians and Greeks. The statistic data of your country shows that 99% of the population living in your country are Moslem Turks. So what happened? How could a tribe with 10.000 people turn into a nation with 65.000.000 Moslem Turks? Well, you succeeded due to the gene in your chromosomes.

HAPPY NOVRUZ

/NEW YEAR/ TO YOU KURDS!

Excuse our fault! We forgot that there are no Kurds in Turkey. As you say, Kurds are just "Turks from mountains".

You have believed in this ribaldry for years.

Truly speaking, you could do nothing else.

The Kurdish problem was hard to solve.

Once Kurds inhabited Eastern Anatolia, and the region was almost Kurdistan.

All the buses going from SEBASTIA to the east were under the control of the Kurdish BESHMERKANS.

What could you do? You were anxious for the Kurdish problem.

Circa 1885, you started to arrange the Armenian question.

Sultan HAMMID was the creator of the Kurdish problem.

Do you know why?

As he had an intention to clean up the Eastern Anatolia of the Armenians in 1885, he called up all the Kurdish people living in the south and formed "HAMMIDIE REGIMENTS". He sent those Kurds to the Armenian states where they beheaded all the Armenians. HAMMID settled the Kurds in those vacant territories of Armenians.

During the First World War, the Turks began the Armenian Genocide and used the Kurds as cutthroats to terminate the Armenians. Thus, the stupid Kurds subjected to the Turkish trick.

Since ancient times the Greeks had been living in the central and the seaside part of Anatolia, the Armenians in the east part of it, and the Kurds in the south.

The Turks came to Anatolia much later. It was like in the saying, "They came from mountains and made the gardeners leave".

From 1915 to 1923, TALEAT'S & MUSTAFA KEMAL'S detachment cleaned Anatolia of the Armenians and the Greeks. Only Turks and Kurds were left there. Sorry, there only remained the Turks and the "Turks from mountains". Thus, the Turks faced the Kurds.

After the annihilation of Armenians and Greeks, it was the Kurds' turn to be terminated. A proverb says, "Don't harm the innocent, or else you will be cursed and punished". The Kurds had to pay for everything they had done to the Armenians.

Since 1935 until now, Turks have been killing Kurds. Today no Kurds are left in the villages of Anatolia. The Turks killed all of them. ABDULLAH ODJALLAN'S arrest was the most crushing defeat of the Kurds. The Israeli special groups, which have terminated Armenian ASALA members, trapped ODJALLAN and presented him to Turkey. Now the Turks have taken ODJALLAN as a hostage. He is in prison on the Island of IMRAL, and now he has begun to speak about permanent peace with Turks.

The old lion ODJALLAN has turned into a lamb ODJALLAN.

"Never say never", because "you never know."

Humanity is perplexed. What can we do?

"HURRIYET"

**FROM APRIL 5, 2002 INFORMS-
TURKISH AMBASSADOR IN BERLIN
OSMAN GURUTURK SAID, "TURKEY
HAS ALREADY BEEN IN EUROPE
FOR 700 YEARS. TURKEY WILL GET
ITS PLACE IN IT "**

Let us ask questions to dear GORUTURK.

What have you been doing in Europe?

As your national poet NAMUK KEMAL said, your tribe came to Anatolia only at the end of eleventh century. You made the native Christian population of those lands convert to Islam. You cruelly exterminated the majority of those who did not subject to you. You robbed Anatolia. Moreover, when there was nothing left to rob, you passed through Dardanelle to Thrace and began your robbery there. Then you did the same in Bulgaria, Greece, and Serbia. You spread brutality everywhere until you reached the gates of Vienna. There, in 1683, the king of Poland SOBIESKI stopped you and kept you from moving forward and deformed your Army. After that, you retreated and couldn't regain. In the 19th century, the European countries called you "A Sick Man". You were to fail and to drown. The Russians were going to get you out of those lands to send you back to the steppes of Central /Middle/ Asia. Just prey for the English Premier Minister, Jew BENJAMIN DIZRAELI who saved you in 1876. You were just used as a shield against Russia. Moreover, the western countries are still using that kind of strategy towards you. Only due to that policy, you could survive in the lands of Anatolia, Thrace and in C.Polis.

You declare, "We have been in Europe for 700 years". Have you left for memory at least one creation in Greece, Bulgaria, Serbia, and Romania?

Surely, you have. There you have only left reminders of brutality,

slaughter, massacres, and robberies for the Balkan nations. Pardon us for forgetting about them. Except that, you have also left, the people who were forced to convert to Islam such as the "BOMIAKS" in Bulgaria, the "BOSNIANS" in Serbia, and the "ARNAVUTS" in Albania. Now provoking all these peoples, you make efforts to try to restore the Ottoman Empire once again. Let God bless and keep the Balkan nations away from that kind of tragedy.

MAHMED ALI PIRANT'S CONFESSION IN "HURRIET" OF APRIL 20,2002

Reading the boasting Turkish Media, for the first time we came across a quite realistic article.

MAHMED ALI PIRANT'S article titled "When They Say Turk They Think..." is like a confession about Turks, and it gives the exact definition of the word "Turk", and what Europeans think about the Turks. "Strict in appearance, with military mentality, ignoring human rights and democracy, threatening surroundings, having domestic differences with the Europeans." Then he adds, "Let us accept that we are different. The European world differs from ours, but that difference is decreasing day by day."

What "decreasing" is dear PIRANT speaking about? Let alone all the violence and massacres in all those occupied countries carried out for centuries. Let alone the Armenian Genocide. Let alone the massacres against the Greeks in Anatolia and in Pontus. Let us keep silence about the Assyrians, which were massacred with Armenians only for being GYAVOURS.

Let us come to nowadays.

Let us leave aside the "Possession Taxes", the "Twenty-class" exile, and especially the Tragedy of September 6-7, 1955. What can we say about the "Action of Peace"-1974 in Cyprus, which was a real massacre against the Greek people? Let's come to what you have done to the Kurdish people recently. Like the Armenians and Greeks, Kurds also have been the natives of Anatolia. They did not want to lose their national nature, yet you burned all the

Kurdish villages and terminated the population. Does this prove that the difference between you and the Europeans decreases?

You are the same savages today as you were centuries ago. What you did to the Armenians in 1915 has no analogies in the history of humanity. You will remain the same savages until you have not confronted the truth and taken just punishment.

SAMI GOHEN'S ARTICLE " SMALL STEPS POLICY " IN "MILLIET" OF APRIL 27, 2002

SAMI GOHEN, in his article in the newspaper "MILLIET", speaking about the Turkish- Armenian relations and their regulation, refers to some conditions that they propose to Armenia. Those conditions are,

1. Armenia should renounce the claims against Turkey concerning the recognition of the Armenian Genocide by Turkey.

2. Armenia should return the occupied territories of Azerbaijan.

After all, SAMI GOHEN expresses his satisfaction with the speech given by Deputy Minister of Foreign Affairs in Armenia RUBEN SHUGARIAN in an International Meeting, held in Stockholm. According to SAMI GOHEN, RUBEN SHUGARIAN has said, " It's time to regulate the connections between Armenia and Turkey. For this purpose, the question regarding the recognition of the Genocide is not primary. That question is not a political one, it is an emotional question".

We do not know whether RUBEN SHUGARIAN has given such a speech, but all we know is that no Armenian in the world can renounce the Armenian Genocide.

Let us ask SAMI GOHENI, whether his Jew clansmen can withstand any word of criticism or denial concerning the tragedy of the Jewish massacres during the Second World War. Moreover, judges punish every word and doubt that is set against it.

The Armenian nation was completely wiped out in 1915. Their motherland was stolen. Thus, no Armenian will agree to leave it unpunished. Such

an injustice will be reckoned as dishonor and contempt towards the millions of innocent souls callously slaughtered like sheep in 1915.

If justice is left unserved, then those who have caused death to millions of Armenians will be subjected to Tartarean tortures until the end of their life and the souls of the dead will never leave them in peace.

**SAMI GOHEN IN “MILLIET”
OF MAY 9, 2002, SAYS**

**“EXTREME NATIONALISTIC
TENDENCIES HAVE BECOME EVIDENT
IN EUROPE RECENTLY.”**

In order to support his clansmen who keep the World Mass Media in their hands for their propaganda and to help the Turks feel at home in Europe, SAMI GOHEN recently published this article in “MILLIET” where he carps at the Europeans’ attitude towards the Turks. What nationalistic tendencies does he mean?

The native population in Austria, Denmark, Italy, France, and Holland, feeling the danger of losing their national features because of the increasing number of foreigners in their countries, vote for their patriotic parties. SAMI GOHEN renders this attitude as nationalistic. Thus, he refers to America saying that it has become prosperous due to its increasing number of immigrants. He advises the Europeans to follow America’s example.

However, there is something SAMI GOHEN does not know or just does not want to know. Actually, Europeans strive for not becoming Americanized or losing their national nature.

Being the successor of the Greek and Roman civilizations, Europe is the cradle of the present civilization. The invisible powers /to be exact powers that are known to everybody, but about which nobody speaks/ try to demolish the European civilization. Therefore, realizing this danger, the European patriots strive for protecting the Greek-Rome-European civilization of 3000 years. They reject being a country without history, without nationality, a

country of soulless robots. They do not want to be a country of cowboys or gangsters. They struggle against the new CHINGIZ KHANS, the new TAMERLANES, and the new KANUNU SULTAN SULEIMANS so as not to give in to their brutality.

The Europeans struggle against those vicious actions of Turks, who imported the criminal Turkish tradition of C.Polis /"September 6-7, 1955"/ into the European cities of Paris, Strasburg, and Lion and organized the same nights of collapse. Does dear SAMI GOHEN wish to understand this kind of reality?

IMPRESSIONS AFTER VISITING SALONIKA - YOUR FOREFATHER'S BIRTHPLACE

A few weeks ago, we passed by the house where your Forefather was born. Some evil people make commentaries on the fact pertaining to his birthplace. It is a well-known fact that a great number of both apostate Jews and not apostate Jews had been living in SALONIKA since the old times. Let us leave aside all those gossips and speak about the real facts.

We have learnt at school that all those Turkish leaders, who governed after 1900's, were Masons, and that the only exception was MUSTAFA KEMAL. We used to believe in it. In fact, after coming to power MUSTAFA KEMAL prohibited Masonic activities and closed all the Masonic Lodges. However, a few years ago, the German Mass Media published the names of the famous Masons, and KEMAL'S name was included there. The Turkish Media became furious and expressed its dissatisfaction in regards to it. The Germans simply ignored it and published a document proving the Forefather's membership to the Italian Lodge. Only after that, the Turkish Media settled down and the wrangling ceased.

When we passed by the house where your Forefather was born, we saw a marble memorial board on its wall, where a notice was written in four different languages which read: "The creator of the Turkish nation and the defender of the Balkan Union MUSTAFA KEMAL was born here." All

was true on that board. Your Forefather created a nation in 1923, which had never existed before. You were called Ottomans until 1918 and were a mixture of Armenians, Kurds, Greeks, Arab, and Lazes. The so-called Turks formed the minority. In 1923, you became Turkey. How did it happen? Just by the help of the invisible powers. Those invisible forces helped your Forefather to mold you.

In 1918, the Ottoman Empire was falling into pieces, and you had lost everything, but a few years later you recovered, conquering Anatolia once again.

LONG LIVE MUSTAFA KEMAL AND ESPECIALLY THE INVISIBLE FORCES!

N 37

"NAIRI", June 18, 2002, N173

THREE FACTS, WHICH COMPLETELY CHANGED THE FATE OF THE ARMENIAN, GREEK, AND TURKISH NATIONS

FACT 1

MUSTAFA KEMAL WAS BORN IN SALONIKA

MUSTAFA KEMAL, as it was written on the memorial board in SALONIKA, created the Turkish nation. MUSTAFA KEMAL'S supernatural abilities are also mentioned in the March of Decade, "We made 15 millions of young people of all ages in ten years". Does it mean that MUSTAFA KEMAL was a being with supernatural abilities? There are no comments. Let us go ahead.

When we wanted to figure out who he was, we read his biography published in the School Encyclopedia in 1969. While looking through it, we came across these facts: KEMAL was born in 1881 and died on November 10, 1938. It was surprising that the month and day were missing. It was unbelievable that such a prominent figure's birth date could stay unknown.

According to that Encyclopedia, the name of KEMAL'S mother was ZUBEIDA, but his father's name was again missing. It is very strange that the home of his birth is known, but his father's name remains unknown. Thus, it made us think of the different gossips spread around his name. Therefore, we began to dig deeper. In the German Encyclopedia, DER GROSSE BROCKHOUSE, we found his biography, and how surprised we were, when we discovered his birth date missing again. There was just an interrogative mark after the year 1880. Missing the birth date of such "a remarkable" individual with such extraordinary abilities, whose home had become a museum, was rather strange and extraordinary.

However, the most important part in his biography was the following:

"MUSTAFA KEMAL was the ideological friend of ENVER PASHA and took part in the revolution of the "Young Turks"." That means MUSTAFA KEMAL was a member of the party ITTIHAT VE TERRAKKI founded by the apostate and not apostate Jews of SALONIKA. At the same time, we know that MUSTAFA KEMAL collapsed the same party and then organized the capital punishment of many leaders of that party. Yes, in fact MUSTAFA KEMAL was a "mystic" person of supernatural power.

N 38

"NAIRI", July 2, 2002, N174

FACT 2

THE PARTY ITTIHAT VE TERRAKKI WAS FORMED IN SALONIKA

Are these facts just contingencies?

1. MUSTAFA KEMAL WAS BORN IN SALONIKA.
2. THE PARTY ITTAHAT & TERAkki WHICH COMMITTED THE ARMENIAN GENOCIDE WAS FOUNDED IN SALONIKA

If somebody thinks that it can be a contingency, he is either deaf and dumb or stupid.

Just pay attention to this.

The population of SALONIKA in 1905 consisted of 40.000 SAFARID JEWS, 20.000 APOSTATE JEWS, 20.000 MOSLEMS, 40.000 GREEKS, 3.000 FRENCH LEVANDENS.

Most of the Jews were of Italian subjection, and many of them were members of the Italian Masonic Lodge. In 1895, Sultan ABDUL HAMMID realized the program of the invisible powers committing the Armenian massacres.

In 1908, the army of the party ITTAHAT & TERAKKI entered Constantinople and took the power from ABDUL HAMMID who had already finished his mission. In 1914, the party ITTAHAT & TERAKKI started the commitment of another program of those invisible powers. In 1914, the Gipsy, and the "great master" of Masons TALEAT PASHA, Minister of Foreign Affairs took advantage of the chaos of the First World War and began the commitment of the Armenian Genocide. Thus, he was able to violently settle the Armenian Issue within a few months.

In May 19, 1919, the last stage of the program was completed.

MUSTAFA KEMAL went to Samsun and initiated the program of "Great Turkey".

So, the roots of the program "Great Turkey" also originated in SALONIKA. Was that a contingency too?

Surely, that was not. The events in Anatolia from 1914-1923 were just a fragment of the program thought out by the invisible powers regarding the creation of a new world. If you have eyes, you can see. If you have brains, you can understand that the invisible powers dictate all the events in the world today, and everything is a result of their programs.

FACT - 3

THE TRAGEDY OF CONSTANTINOPLE, SEPTEMBER 6-7, 1955

Dear young fellows of C.Polis!

Have you ever heard about the Tragedy of C.Polis of September 6-7, 1955? You have the right to be unaware of it.

Almost 50 years have passed since that tragedy, and you were not yet born. However, haven't you read about it or ever come across facts speaking about it?

"We have not seen it", "have not heard about it" and "we do not know anything about it". You have the right to answer this way. You do not even know a thing about the Armenian Genocide. You only know what you have been taught. "The Armenians have slaughtered the Turks", this is your "truth". What a pity! "The Armenians massacred the Turks". If so, answer this question. Why aren't there any Armenians in Anatolia, in their Motherland? Instead, there are millions of Turks occupying the land. If the Armenians massacred them, where did these Turks come from? How do you believe in the ribaldry of your leaders?

Do you really believe in them or just pretend that you do?

You know the reality better than anyone else does, because your ancestors must have told you about their "braveness" during those massacres.

Now let's return to the C.Polis tragedy of September 6-7, 1955.

We felt deeply for all that tragedy from the beginning until the end. We saw the so-called people or more suit to say, the provoked mob in action.

Everything started with a vexing publication in "ISTAMBUL

EXPRESS". It said, "The house in SALONIKA, where ATTATURK was born, has been bombed."

It was like a signal, like an order for start. After half an hour, the shops, the houses, and the churches that belonged to the Greeks and Armenians were attacked. The information that ATTATURK'S house in Salonika had been bombed, served as a motive. It appeared to be retribution. However, it had been planned beforehand, and it was a clockwise plan. There was no doubt that the attacks on GYAVOURS had been planned by the MIT Officers' Staff /Turkish organization of investigation and information/ ahead of time, like a war plan. The attacks on the neighborhoods of GYAVOURS started everywhere at 9 pm. "Cyprus is Turkish", "Hang out the flags" these uproars were heard everywhere. Thousands of raiders began robbing and demolishing the shops with incredible ferocity. Moreover, there were neither police officers nor soldiers to prevent those actions and to stop the savageness.

Where were the C.Police and the soldiers during all those events of September 6-7, 1955? Why were they missing? It seemed like all the security forces had been taken away, or had all just suddenly disappeared. That situation must have been part of the plan, because the Premier Minister of that time ADNAN MENDERES said "Let the boys have fun." Therefore, neither the police nor the soldiers disturbed them, and the boys really had fun robbing all the shops and churches of the Greeks and Armenians in the course of a few hours. As it appeared, the mob was the only "master" of C.Polis during that evening, chaotic and disorganized. However, if observed thoroughly with attention one would come to understand that a well -organized action was being carried out, for every group had its leaders who pointed at the shops and ordered them to be destroyed. Raids on apartments or houses did not take place that night. Attacks on homes were few compared with the shops, because orders of massacres were not given. Only shops and churches were to be attacked and raided. The program had been thought out properly and was carried out as such.

When the events began, we were in our apartment on KURTULUSH Street. The mob started with raiding the pastry shop HAYLAYF on

BANKALTI Street at 9 pm. We were informed about it by telephone later. After ruining HAYLAYF, a group of raiders went to OSMANBEY, and another one went along ERKENEGON Avenue to KURTULUSH destroying all the shops belonging to Greeks and Armenians. The head of the group was leading them, instructing them to act. The mob, following the instructions of the leader, went on robbing and destroying one shop after another, leaving it in ruins. We were watching them personally.

There were many shops such as groceries, dessert shops, green-groceries, butcheries, pastries, and clothing shops on ERKENGON, which belonged to GYAVOURS. Breaking the shutters of the shops, destroying everything in them, the raiders were taking out all the spoiled and broken goods to the streets. Thus, the streets turned into dumps, full of different goods taken out from the shops. They mixed everything together, such as vinegar, wine, brandy, petroleum, flour, sugar etc. All those mixtures began to stink awfully, the smell penetrated into our apartments, and it was hard to breathe. The stench was burning our throats. While watching the mob, we wanted to see their faces. Most of the people were stealing the goods, but some of them were just demolishing everything with incredible violence. Those people were like wild animals that had simply removed their masks turning into extremely fierce "ottomans".

All that overturning, overwhelming raiding lasted until one o'clock. At one sharp, a Jeep approached them from BANKALTI. In it were a few soldiers and an officer. The officer whistled and began to shout, "Get away, and disperse!" The mob immediately dispersed and disappeared. We stayed there in front of the ruined shops. The streets had turned into dumps, and the persistent and unbearable stench was everywhere. The GYAVOURS like us, who underwent all that ruin, will never forget the feeling of fear, wrath and frustration of those devastating days.

After midnight, there were no raiders left in the streets, and a strange crowd, who had eager desire to see the ruins of the shops, shifted them. They were watching the destruction as if they were watching a film or a performance, and it seemed to bring them pleasure. They too, were having fun.

We broke into the crowd and walked with them to BANKALTY. The luxury shops, especially the once swell Pastry "HAYLIFE" in

BANKALTI, were unrecognizably destroyed. Then we went to HARPIYE. The crowd was growing and growing.

Suddenly, we saw very strange cars moving along the streets. From the trunks of those cars, long silk tails were suspended. A few minutes later, we understood that the owners of those cars, taking away the drapery from the robbed shops, had bound them from the back of their cars just for their amusement. While the cars were moving forward, the tails of the fabric were strangely covering the streets. Four or five of those cars were cruising at night in C.Polis like demons, with wild excitement. They will stay in our memory as one of the most dreadful recollections of those days. Passing by them we went to TAXIM from HARPIYE. When we reached there, we saw the church AYATRIAT in flames, as it continued to burn.

Until 1923, Rue De PERA was the pride of Constantinople, and the center of the wealthiest class of the city, and currently it is called BEYOGLU Avenue. When we went there, we didn't believe our eyes. It seemed to be bombarded. Nothing had survived. Everything had been taken out from the shops and thrown here and there, or mixed all together. The street was closed in some places; one could see hillocks of goods everywhere.

We couldn't stand the chaotic situation any longer and began to cry and mourn standing in front of the ruins, which symbolized the brutality of the savage creation called a HUMAN BEING.

We tried to describe you the fearful events we witnessed during those tragic days in September 1955, in C.Polis. Now we would like to tell you the motives for those actions.

In 1951, Minister of Foreign Affairs FUAT KOPRULU declared officially, "We don't have any problem with Cyprus." Nevertheless, eventually the traditional English immoral politics worked, and they began to provoke the Turks so as not to lose Cyprus. The English Secret Service assigned the owner of the newspaper "HURRIET" SEDAT SIMAVI a task to provoke the Turkish people. The latter was originally from Cyprus. The responsibility of all the painful events connected with Cyprus lies with "HURRIET". The so-called "HURRIET" circa 1951 started planting the issue of Cyprus in the brains of Turks spreading unfair and false information and publishing provoking articles. This very newspaper was the first

to use the slogan "Cyprus is Turkish". All those provocations lasted a few years. After a while, the frustrating English Policy produced results and the Turkish government began its aggressive policy. In August 1955, three months before the Cyprian negotiations started in London, the Minister of Foreign Affairs in Britain gave an instruction to Minister of Foreign Affairs in Turkey FASTIN RUSTU ZORLU, "You should organize demonstrations for Cyprus and claim your rights for it."

These provocative instructions were the prime motives of the tragedy in C.Polis. The rest was organized by three forces FATIN RUSTU ZORLU, Premier Minister ADNAN MENDERES and the President of MIT / Turkish Organization of Investigation and Information/. A Machiavellian scenario was prepared and sent to SALONIKA. The main four heroes of the scenario were the following individuals:

1. Highest Counsel of SALONIKA MAHOMET ALI BALIN,
2. Assistant of the Highest Counsel MAHOMET ALI TETIKALP,
3. MIT Agent OTKAY ENGIN who was /as if/ majoring in Jurisprudence in SALONIKA
4. Door- keeper of the Consulate HASSAN UCAR.

They decided to perform the scenario as such: a bomb brought from C.Polis was to be exploded in the garden of MUSTAFA KEMAL'S house, and the incident was to be informed in C.Polis as if the Greeks had exploded ATTATURK'S house.

That was to be the motive of the C.Polis tragedy.

The official report submitted to the authorities regarding the tragic events of those days said: "31 people were dead, 30 people were injured, 73 churches, 8 ayazmas, 2 monasteries, and only 1 synagogue were destroyed. 3584 shops that belonged to Greeks 3584, 1954 shops that belonged to Armenians and not Islamite people were destroyed."

Now, what we know about it.

All the Greek churches were destroyed except the Patriarchal church of FENER.

Most of the Armenian and other Christian churches were destroyed.

One Jewish Synagogue was destroyed by mistake.

All the shops that belonged to Greeks were destroyed.

Most of the shops that belonged to Armenians and other Christians were destroyed.

Besides a few tragic incidents happened during those two days.

A Greek priest passing by the raiders was caught by them. They took all his cloths off, and hanging him up from his testicles, killed him.

The historical graves of the Greek Patriarchs were destroyed. The bones of the Patriarchs were taken out and stamped with feet. However, the most painful was that the President of the American Organization CIA, ALLEN DULLAS, giving a speech at an international meeting held in C.Polis that very day, blamed the communists for the events of September 6-7, 1955. Jewish Premier Minister of France Mendes-France who had also been present at the same meeting, and had witnessed those violent actions, did not express anything against it coming back to France.

However, excluding the facts of all those misfortunes and destructions, the foremost event after that tragedy was the following:

After 1923, the Turks changed the name of the city Constantinople into ISTAMBUL. In spite of that, C.Polis had never changed its specific nature of Constantinople until 1955, as there lived 100.000 Greeks. However, after the tragic days of September 6-7, the Greeks of C.Polis began to emigrate from Turkey and most of them settled in Greece. Today the number of the Greek population living in C.Polis does not exceed a few hundreds.

In reality, that was exactly what, the invisible powers controlling Turkey, wanted. They had been realizing this mission until 1923, purging Anatolia from GYAVOURS. Later they did the same in C.Polis in September 1955.

The former Minister of Foreign Affairs in Turkey FUAT KOPRULU'S statement was notable, " In 1957, I asked President CHELAL BAYAR about the events of 1955. He replied in this manner, "By all means, those events were useful for us. Our friends also think the same way."

N 45

"NAIRI", October 8, 2002, N181

CONCLUSIONS WE ARRIVED CONSIDERING THE TRAGEDY IN C.POLIS IN 1955 AS WITNESSES

The Turks occupied C.Polis in 1453, but they could make it Turkish only 500 years later in September 1955 by pulling down everything that was not Moslem.

The Cyprus Question is considered to be the motive of the tragic events of September 6-7, 1955, but it is only a superficial impression. The true reason of that tragedy is the program of the invisible powers, which have been realizing it for more than a century.

Those powers started recovering the "Sick Man" Ottoman Empire in 1850. In 1915, they purged Anatolia of Armenians by committing the Armenian Genocide according to that program.

From 1919 to 1923, they perpetrated genocide against the Greeks and the people of Pontus in Anatolia.

Eventually they purged Anatolia from all the GYAVOURS.

In September 6-7, 1955, they carried out the last stage of the program purging Polis of the GYAVOURS.

Circa 1960, the agent of those invisible highest powers Mason SULLEIMAN DEMIRREL set forward the program "Great Turkey".

1. Cyprus invasion in 1974.
2. Islamization of Bosnia in 1992.
3. Kosovo was given to Muslim Albania in 1998.

All these served to the realization of the program "Great Turkey".

Currently, Turkey is dreaming about petroleum. The invisible highest powers or to be exact the new rising union America - Israel - Turkey is going to attack Iraq. Turkey has spotted KIRKUK for its petroleum.

However, walk on eggs, Turks. Don't be so greedy. "When you want to have more, you can lose what you have" because a bird in the hand is worth two in the bush.

THE GREAT TURKISH THEATRE

We do not have any intention to speak about JACOB VARDOVIAN, who was the founder of the first Turkish theatre in KETIKBASHA, C.Polis, in 1873 /Turkish name is GULLU AKUP/. The very JACOB VARDOVIAN, who performed the play by NAMUK KEMAL "Motherland or Celeste". As the audience was frustrated watching his performance, Sultan ABDUL HAMMID sentenced JACOB VARDOVIAN to death. However, a bit later, the well - known Ottoman method was used. That is, "If you convert to Islam, you will be set free." Therefore, he changed his religion and was really set free.

We aren't going to speak about the Armenian MNAKIAN Effendi either, who, after JACOB VARDOVIAN, provided a great progress for the Turkish theatre performing the best European plays. Moreover, we do not have any intention to speak about the agent of the Turkish ideology of pressure and dictatorship VASFI RIZA ZOBU, who used to talk smut saying that VARDOVIAN had originated from a Turkish family, but later had become an Armenian.

We are just going to speak about the "Great Performance" played by Turkey against Iraq and the Kurds of Iraq currently. After all, Turkey is very happy with America's plan of overthrowing Saddam Hussein and dominating the bore- holes of the Middle East petroleum.

Intending to take advantage of the chaotic situation, Turkey hopes to settle accounts with the Kurds of Iraq.

Now they intend to enter KIRKUK "to save" the Turkmen people the same way as they carried out their false "Action of Peace" in Cyprus. They simply cherish the dream of possessing the oil bores in KIRKUK.

"MILLIYET" of October 12, 2002 goes on provoking and threatening the Kurds by the bold headlines, which say, "THEY ARE GOING TOO FAR". The motive for it is the new Constitution of Iraqi Kurds by which they recognize KIRKUK as their capital.

"MILLIYET" of October 18, 2002 published an article titled "USE YOUR BRAINS, PARZANI!" The maps of Kurdistan, where Eastern Anatolia is included, and which have been used in Kurdish Representative

Offices in Europe, served as a motive for this article then. Those maps of Kurds are not new. Kurds have been using them for 50 years. Turks, did you learn about them last year? You can't have failed to see them before. It is impossible. It is just an excuse and a part of your performance.

However, will America concede Turkey the drill-holes of oil? As we wrote in our previous article, "Turks, while having a great desire to have more, you can lose what you have!" Always remember that a bird in the hand is worth two in the bush.

The Turkish newspapers didn't write much about Iraq recently. Who knows? They might have been using their brains and have concluded that things really look black.

TUFAN TURENCH'S BOYISH AND EVEN FUNNY RIBALDRY IN HURRIET OF OCTOBER 30, 2002

We have already said that the publications in the Turkish newspapers mostly reflex the propaganda of the Turkish fascist State. Nevertheless, we could never expect to read such stupid ribaldry in "HURRIET" signed by TUFAN TURENCH. It is full of lies from start to end. Having an intention to make a counterattack against the claim submitted to Turkey by Russia regarding their support to Chechen terrorists, the author tries to draw the readers' attention to other matters. He declares that President POUTIN is the one responsible for the death of hundreds of people in the theatre of Moscow.

Isn't TUFAN TURENCH aware of the fact that the presidents of the Powerful States have congratulated POUTIN for saving more than 700 hostages' lives?

Doesn't he know what happened in New York in September 11, 2001?

Can he be unaware of the particulars regarding the American jet taken by terrorists, which was bound for the White House? The Americans eventually terminated the jet, because they intended to prevent a greater tragedy. Doesn't he know that the prevention of that tragedy caused the

death of so many innocent passengers?

Surely, he must know that. His current purpose is to veil the guilt of the fascist Turkish State that supports the Chechen terrorists.

The author is certainly aware of some other things too.

After the event of September 11, 2001 in New York, the United Nations and America declared war against Ben Laden and the reactionary government of TALIBAN in Afghanistan. After a week, TALIBANS were all terminated. So, what is the difference between the TALIBANS and the Chechen terrorists? Is the fascist Turkish State, which supports the Chechen terrorists, less guilty than the reactionary TALIBANS?

TALIBANS were punished. When will the fascist Turkish State be punished?

**LET'S LAUGH A LITTLE
/FUNNY & TRAGIC AT THE SAME TIME/**

REGARDING THE PUBLICATION IN “HURRIET” OF OCTOBER 30, 2002

BY TUFAN TURENCH

A DISCOVERY, WHICH SOUNDS TO MAKE RADICAL CHANGES IN THE WORLD - “Anatolia is a part of Europe!”

According to the discovery made by TUFAN TURENCH, Anatolia, which has been called “Asia Minor” since ancient times, now will be called “Europe Minor” and will be linked to Europe.

Dear TUFAN TURENCH!

Let us leave aside the joke, but listen.

Let us speak about what you did in the cradle of civilization and Christianity Anatolia. You forced the Christian people change their religion and become Turks under the threat of yataghan. Those who didn't want to obey were subjected to yataghan. You just cut their heads.

This system was put in use in Greece, Bulgaria, Albania, and Serbia as well. You worked “wonders” there.

However, whatever you do now, you can't link Anatolia to Europe. You have always broken the rules of humanity, but you can never change the rules of Geography. Shortly, this is not the case of your dear yataghan. No one can say "Amen" to your unspeakable pray.

TUFAN TURENCH seems to have an old habit of blackguarding with his evil tongue.

Being frustrated with the NOTE of Russians, he speaks out ribaldry and indictment towards President POUTIN, who has saved the lives of thousands of people.

Then he starts to indict the former President of France JESKAR D'ESTENNE, because the latter has said, " Turkey is not Europe. It is an Asian country. This is why it can't join the European Union". Therefore, TUFAN TURENCH, being upset with it, starts giving lessons on Geography and puts forward the ribaldry that Anatolia is a part of Europe.

**WHY DOES AMERICA PRESSURE
EUROPEAN COUNTRIES TO ACCEPT
TURKEY WITHIN
THE EUROPEAN UNION?
SURELY NOT FOR THEIR PRETTY EYES**

America wants Turkey to be involved in the European Union because America is on the "anxious bench" regarding the European Union; in future it may pretend to be America's potential rival with its population of 500 million people. In 1991 America destroyed the Soviet Union to get rid of the communism but the same method can't be used towards the European Union. That is why it is preferable for America to have Turkey as the Trojan horse there, in order to destroy it from within. The Turkish leaders are the successors of CHINGIZ KHAN, TAMERLANE, and the bloodthirsty Ottoman sultans. America knows quite well, what will happen after Turkey appears in the European Union. This is the reason America is longing for it. However, when JESKAR D'ESTENNE declared that Turkey is not a European country, America was embar-

passed. Deputy Minister of Defense in America, PAUL WOLFOVICH, giving speech in London ordered, "Embrace the Turks!" Then praising the Turks, he left for ANKARA.

February is coming soon. Soon the attack on Iraq will start. Besides, meetings are to be held in Ankara regarding the last preparatory particulars of the Attack on Iraq. The Turks should certainly agree with WOLFOVICH in every other question as he did his best in London. The world has had a great deal of such immoral periods. Moreover, there is no doubt that the authors of those Machiavellian programs are the invisible web organizations founded by the financial barons of this world. Those invisible web organizations squeeze out the peoples' blood living on the earth. I wonder how long this tragedy will last. If the Europeans have a little brain, they will join the Russians, who are real Europeans. Only then, a real European Union will be born, and only then, the monopoly of the country based on false liberties, the country called America will come to an end.

THE FABLE OF THE WOLF AND A LAMB

Do you know the story of the Wolf and a Lamb? As the Wolf was drinking water, he noticed the presence of a lamb at some distance downstream. He decided at once to seize him, but he thought he should first prove that this was the right thing to do. He began scolding the Lamb, "Why are you polluting my water?" The Lamb answered meekly, "Mister Wolf, how can I pollute your water when it runs from you to me, not from me to you?" The Wolf said, "In any case, a year ago you called me bad names." "Oh, sir," said the Lamb trembling, "A year ago I wasn't born. I couldn't have had anything to do with it."

"That doesn't matter, I will eat you". Without another word, he took hold of the Lamb and destroyed him.

America is going to attack Iraq claiming that Iraq possesses weapon of mass destruction. In January 10, 2003, the Head of the Searcher Experts HANS BLIX informed the members of the Security Counsel, "We didn't

find any weapons of mass destruction in Iraq."

Foreign Affairs Minister in America COLIN POWELL speaking about it said,

"Catching Iraq out is not a prerequisite for attack. The fact that Iraq hasn't been caught doesn't mean that Iraq hasn't violated the imperative conditions."

So, what is the difference between the story I told you above and the story of Iraq?

America's goal is "to eat" Iraq, whether or not there is such a weapon there.

America is attacking Iraq in February. America needs Iraq's petroleum. America can't rely anymore on Saudi Arabia after the Tragedy of September 11, 2001 in New York. That is why America intends to attack the country, which takes the second place in the world with its own oil reserves. Thus, America wants to have permanent monopoly in the world and be the "master of the world". The name of this intention is "uncivil iniquity".

The Turks want to take advantage of it and to snatch the spoil.

That is why they put forward "the dream of KIRKUK petroleum", but America will never tolerate it and let Turkey gain power. Turkey will always long for America. Americans know very well who the Turks are. That is why the Turks will "neither lengthen nor shorten".

Turks, don't have bubble-dreams, otherwise you will be disappointed!

"AMERICAN FIESTA OF KURBAN"

The Moslems are going to celebrate "KURBAN" and to sacrifice sheep in February.

America is also going to celebrate. America is going to sacrifice Iraqi people.

Do you know why America is always calling Saddam's name? Who is Saddam?

Saddam is a member of the organization CIA, like Ben Laden or

General NOYREKA.

In 1979, America brought Saddam to power telling him to kill the communists of Iraq. After coming to power in 1979, Saddam killed ten thousands of communists by Americas command. Then again, by America's order Saddam attacked Iran. Hundred thousands of innocent people were killed during the war, which lasted many years. That was America's "KURBAN" of that time.

Now America is going to sacrifice "its dear Saddam" in February to own Iraqi petroleum.

The falsification that Saddam has a weapon of mass destruction or chemical weapon is just a tall tailed lie. Behind all those accusations America's main goals are hidden.

Those goals are:

1. To possess the oil bore- holes,
2. To destroy the last Arabic State, the mortal enemy of Israel.

Apart from these, every other argument is ribaldry and false.

The long lasting policy of squeezing the peoples' blood by the financial barons of the world doesn't change. Only the cloths, weapons and the words change. We are sorry for the Iraqi people.

Since 1990, thousands of innocent people died in Iraq because of its blockade by America.

America will sacrifice them again in February 2003 at "KURBAN".

WHO IS A TURK?

In 1919, a Greek deputy in the Ottoman National Assembly gave the following definition of the word, "A gray wolf or a black wolf. A wolf is a wolf. Whatever they are, a Turk is a Turk."

In 1974, Premier Minister of Turkey ECHEVIT called the tragedy of Cyprus "Action of Peace".

Two days ago, Premier Minister of Turkey ABDULLAH GYULL spoke about the attack on Iraq this way, "The Turkish soldiers mustn't participate in the war". They will just occupy Northern Iraq with humane

intentions, without any massacres.

Even the raven will laugh at these words.

Be it ECHEVIT in 1974, or ABDULLAH GYULL in 2003, its all the same. They are the same Turks with the same intentions and ribaldry.

Ten thousands of innocent people were killed during the "Peace Action" in Cyprus in 1974.

Let's see the number of Kurds that will be killed in Northern Iraq during the occupation with such "human intentions".

OPPORTUNIST TURKEY

While introducing the Turks, we can use many epithets, such as wild, savage, barbaric, raider, bloodthirsty etc., but today's Turks deserve also the epithet "opportunist" and "timeserving".

A month ago the Turks required 40 billion dollars to provide America with space for the attack on Iraq. America agreed to give only six billion.

Before that, the government was changed. A religious party substituted the old one. The sacking raised and the bargain hardened.

The new Premier ABDULLAH GYULL said, "We want ninety-two billion, otherwise you will not get any space to enter Iraq."

BUSH got angry and said, "You will not get more than twenty eight billion. If you don't agree, we will call our ships back from Cyprus. They will pass the Suez Channel and navigate to the Persian Bay. We will cancel the plan of attack on Northern Iraq."

It will probably be very hard for America in that case. Probably a greater number of American soldiers will be killed if the attack begins from the south. The Turks realize it very well, therefore, they insist on the ninety-two billion. They also require permission for them to solve the issue of Northern Iraq. America is in a difficult situation, and will probably give in and agree with it. Bravo to timeserving Turkey! The Turks took advantage of the First World War and committed the Armenian Genocide. Now they want to take advantage of the war in Iraq and massacre the Kurds of Northern Iraq.

NORTHERN IRAQ. INCURSION BY TURKS IS A BIG MENACE FOR KURDS

The Kurdish correspondent of "NEW YORK TIMES" NASREEN SIDEK who lives in the city of ERPIL in IRAQ announces the following in the newspaper of March 7, 2003, "Northern Iraq incursion by Turks is the biggest menace for Kurds".

NASREEN SIDEK has the right to worry about it, because he knows very well that the day of taking Northern Iraq by Turks will be fatal for all the Kurds.

Kurds of Northern Iraq know that Turks have terminated the Kurds living in Eastern Anatolia by flame-throwers. Being Armenians, we are very sorry for the Kurds massacred by Turks. However, we have to give some historical information to the Kurds. In 1995, the leader of P.K.K ABDULLAH ODJALLAN ignoring the historical facts insisted on including the Western Armenian cities VAN, KARS, ERZANKA etc. in the territory of Kurdistan. The maps of Kurdistan published by Kurds include not only the lands of Western Armenia, but also the lands of today's Armenia up to YEREVAN. We just want to tell Kurds that until 1890, there were no Kurds in the Armenian states called Western Armenia in Eastern Anatolia. During those years Sultan ABDUL HAMMID intending to repress the Armenians' rebellion for liberty in the state of SASSUN, ordered to form "HAMMIDIE REGIMENTS" of the Kurds living in Northern Iraq. Those regiments massacred all the Armenians of SASSUN and its surroundings. After that, the Kurds coming from Northern Iraq inhabited those vacant lands of Armenians.

In 1915, when the Turks began the Armenian Genocide taking advantage of the chaotic situation in the world, they used the Kurds as butchers and during that period, they cooperated in killing the Anatolian Armenians with unspeakable cruelty. Kurds, you never thought that in 1915 the savages from Central Asia, who terminated the Armenians that had been the natives of those lands for more than 3000 years, would one day do the same to you. You would never think that you were the next to be massacred. If you didn't join them and were a bit circumspect in 1915, if you

could avoid participating in massacres, if you cooperated with Armenians against the Turks, you could send them back to the steppes of Central /Middle/Asia.

What a pity that you lost your chance then. Terminating the Armenians then, you have to suffer now. Poor Kurds!

**SORRY TURKS, YOU LOST
YOUR SWEETEST DREAMS!
AMERICA SAID "NO" TO THE
TURKISH PLAN OF INCURSION
INTO NORTHERN IRAQ**

You went on bargaining until the last minute setting the following terms for giving America space to attack Iraq:

1. 92 billion dollars for space,
2. To permit the Turkish troops to enter Northern Iraq /with humane intentions/.

America agreed with the first one, but said "NO" to the second one.

You didn't allow the American troops to enter Iraq through Turkey.

This is the latest news.

America cancelled the Northern Iraq incursion plan. Twenty-five American ships full of tanks have left Cyprus and are navigating to Kuwait through the Suez Channel. Do you take Americans for idiots? You want to enter Northern Iraq, kill the people there, and snatch petroleum bore holes. Sorry Turks, you lost your sweetest dreams. However, the most important thing for us is that you are not America's irreplaceable ally any longer.

**IT'S INCREDIBLE!
A NEW BOOK ABOUT THE ARMENIAN
GENOCIDE PUBLISHED BY A TURKISH
WRITER! - FACTS KNOWN BY EVERY
BODY EXCEPT TURKS**

One of our Armenian friends sent us a book in Turkish. The author of the book is KEMAL YEALCHIN from TENIZLI. The book is entitled "MY SOUL FROLICS FOR YOU". If we hadn't been told that the book was about the Armenian Genocide, we would probably never touch it because all the books published in Turkey concerning this question simply reject the fact of the Armenian Genocide or just insist on the ribaldry that the Armenians have killed the Turks.

As opposed to it, we have always answered them, "If the Armenian Genocide didn't take place in 1915, and if the Armenians killed the Turks, then how is it that there are currently no Armenians living in Eastern Anatolia, which has been the Armenians' Motherland for 3000 years?"

We must confess that at first we started reading KEMAL YEALCHIN'S book unwillingly. Then it captured our attention and interest so much that we didn't even leave it for a moment. We congratulate KEMAL YEALCHIN on his new book and especially on having the courage to write about the dreadful realities of the Armenian Genocide in Turkish. Writing this kind of book is a brave action for a Turk, I dare say it is heroism. We were delighted with the humane thoughts and the benevolence expressed throughout the book. We have some ideas that we would like to share with him.

Dear KEMAL YEALCHIN, your thoughts about love and goodwill are right and noble only between persons but not between nations, because a person has the right of making decisions in his personal problems and his feeling of love can mostly conquer the feeling of advantage. The feelings of friendship and unity are false between nations, especially when it comes to the Armenians and the Turks. Because the only factual law between the nations is the law of benefit. The nations that believe in unity between peoples are to undergo disappointment and extermination. The factual example is the Armenian nation.

In the 19th century, all the nations living in the Ottoman Empire, such as the Greeks, Bulgarians, Serbs and Arabs gained their independence only by rebellion. Only Armenians stayed faithful to Turks and earned the title of "MILLETI SADIKAYI ERMENIYE", "The Faithful Nation of Armenians" from Sultan HAMMID. The closest nation standing by Turkey when "Liberty" was declared in 1908 were the Armenians. They concluded unity with the party ITTIHAT VE TERAKKI, while the latter subjected them to genocide taking advantage of the chaotic situation of the First World War. In 1915, the President of Masons and the Minister of Internal Affairs TALEAT PASHA, who found shelter among the Armenians during the rebellion of Mullahs in 1909, ordered to exterminate all the Armenians from youngest to the oldest. That was how they paid Armenians for their faithfulness.

During the Armenian Genocide in April 24, 1915, all the Armenians from to ETIRNE to VAN were exiled or killed. Up to now, the Turks have been categorically denying all the facts concerning the Armenian Genocide, which was committed by them 88 years ago.

America is trying to reconcile Armenia with Turkey. What reconciliation are you talking about?

Few Armenians now face to the 70 millions of Turks. No Armenians live in the lands of Western Armenia now, and 99.9% of the population in Turkey is Turks. Handful of Armenians lives in the handful of land. No country in the world has committed this kind of sanguinary in the history of humanity. If Armenians accept what America wants, and if they reconcile with Turks, thus they will sign their death sentence. It is a trap.

**"TURKS HAVE LIVED WITH
ARMENIANS FOR CENTURIES
SO, LET THEM LIVE FRIENDLY
EVER AFTER"**

The author of the book "MY SOUL FROLICS FOR YOU" expresses these kind of hearty wishes. We don't have the right to doubt that KEMAL YEALCHIN is sincere. But we want to answer his peace-loving wish with an

Armenian saying, "Go and die, I will love you then." The moral of it is, "If you love me after my death, I don't need it." We have already spoken about it.

The chauvinist and fascist leaders exterminated all the Armenians living /3000 years/ in their Motherland of Eastern Anatolia and in all the territory of the Ottoman Empire. Now Turkey wishes to live in peace together. How many Armenians are left to live in peace with them? You say we have lived together for centuries. No, we have lived only for a few hundred years.

The Armenians have been the natives of Anatolia, while the Turks are new-comers. You were only a savage tribe when you invaded the lands of Anatolia.

You conquered the Byzantines in MANAZKERT and entered Anatolia in the end of the 11th century. Remember the words of the Turkish poet NAMUK KEMAL, "We created a World Conqueror Empery from a tribe." Yes, you were a tribe then, and turned into an Empery in a few centuries. Don't you know how you did it?

You did it only by massacres, exterminations, raiding and by Islamizing the natives, the Greeks and the Armenians by force. Do the contemporary Turks differ from the former Ottomans?

No, they don't. They are worse. The "Possession Taxes", "September 6-7, 1955", "Action of Peace" speak about the real nature of today's Turks.

Dear YEALCHIN!

You are one of the victims of those Turks and their mentality. That fascist mentality ordered to eliminate thousands of volumes of your book "MY SOUL FROLICS FOR YOU" in C.Polis. They did it. That fascist mentality of today's Turkey will never change, until the Turks who are responsible for the Armenian Genocide are not punished.

**AN OPEN LETTER TO KEMAL
YEALCHIN, THE AUTHOR OF "MY
HEART FROLICS FOR YOU"
"CRIME & PUNISHMENT"**

Dear KEMAL YEALCHIN!

We don't intend to talk to you about DOSTOYEVSKY'S CRIME &

REALITIES "UNKNOWN" TO TURKS

PUNISHMENT.

All criminals in all civilized States are usually punished in accordance with the Law. If there are unpunished criminals in a country, and the State doesn't punish its criminals, it is a State of brigands. Here is the pain of all the Armenians who have survived the Armenian Genocide.

The Turks who committed the Armenian Genocide in 1915 haven't been punished yet.

Dear KEMAL YEALCHIN!

It is not enough to congratulate you on your humane ideas and wishes of goodwill. You see, there is a proverb that says, "There will never come spring with one flower".

You are an exception among the Turks. No one like you can be found out of a thousand or of a ten thousand of Turks.

Therefore, we are praying for you. We wish you a safe life in Germany, and let the "gray wolves" be unable to harm you there.

Yes, dear KEMAL YEALCHIN, you are an exception among all the Turks with your kindness, you are one out of 10.000, but have you ever thought about the rest of the Turks? Have you ever thought about those 9.999 cruel Turks out of 10.000? Unfortunately, they are the real successors of those Turks who used to exterminate the Anatolian Armenians for centuries, and who committed the Armenian Genocide in 1915 and stayed unpunished in the State of brigands. Yes, the 99.9% of the population in Turkey is heirs of unpunished criminals. They are aware of the fact that their ancestors haven't been punished for all their evil in this world. So, don't doubt that these successors will certainly commit the same crimes when having the chance.

Therefore, the punishment of the criminal State of brigands, the punishment of Turkey for the Armenian Genocide is the holy obligation of the Humanity.

AN OPEN LETTER TO THE ARMENIAN FAMILIES IN C.POLIS

The Ministry of Education in Turkey sent a circular to all the Turkish and Armenian schools in April 14, 2003, which required holding a Contest of Essays on topic of "The Groundlessness Of Insistence That The Armenian Genocide Should Be Officially Recognized"

/ May 12, 2003 – "HURRIET"/

Dear Fathers and Mothers of the Armenian students!

If you want your children to win the contest of denying the fact of the Armenian Genocide, tell your children to write this statement in their essays, "The persistence of Armenians regarding the genocide is completely groundless. There has never been committed any genocide of Armenians by Turks. Contrarily, there has been Turkish genocide. The Armenians have always massacred the Turks. We, the Turks, have been the natives of Anatolia for more than 3000 years.

Armenians invaded Anatolia in the 11th century. Since then, the wild Armenians have killed the Turks. They have snatched their lands. Those ferocities of Armenians lasted centuries.

It is not true that the Turks killed Armenians in the First World War.

In 1915, all the Armenians of Tekirdag, Edirne, Bandirma, Izmit, Bursa, and Anatolia set forward to support the Russians. They killed all the Turks on their way. "Those Armenian liars." "

TURKISH – ARMENIAN "CIFTE – TELLI" HELD BY JEWISH PROFESSORS IN MINNESOTA

Are the Jews so fond of the Armenians that they want to reconcile them with the Turks? Are they? It doesn't seem like that.

They probably don't want the world to know what key role the Jews from SALONIKA played in the commitment of THE ARMENIAN GENOCIDE in APRIL 24, 1915.

TURKISH -ARMENIAN "CIFTE-TELLI" IN MINNESOTA

The western countries have been making the Armenians reconcile with the Turks for years.

Why have they been doing that? Are the western countries very fond of the Armenians, or they simply don't want the world to know the truth about the Armenian Genocide, to know those who are responsible for it? Are there any invisible powers hidden under the veil?

Undoubtedly there are. Otherwise, the Americans wouldn't permanently insist that the Armenians should do it.

The Turkish-Armenian meeting was held in Minnesota. The participants were not diplomatic authorities from the Republic of Armenia or Turkey. Most of them were professors on History. Those historians gathered there, because they had to decide, whether the Armenian Genocide had really been genocide. What a pity!

If those so-called historians are really historians, they should know that in all the archives of all the Countries, which had their Embassies in Constantinople in 1915, thousands of documents have preserved proving that the Genocide against the Armenian nation in 1915 has had no analogies in the history of humanity. The Turks are completely aware of those realities. Moreover, not only the professor Turks are aware of it, but also all the gendarme Turks, the public official Turks, and the ordinary Turks. After all, they have always been boasting on this subject.

Effendis! Why do you waste time on those historians? Just go to the Turkish people and ask them about the Armenian Genocide. They are quite aware of what they have done.

Now coming to the meeting held in Minnesota, we would like to estimate its foremost advantages.

1. The meeting was very useful for drawing water in a sieve or just beating the air.
2. The meeting was useful for Turks to gain time.
3. The meeting was useful to lull the Armenians to sleep.

"NAIRI", June 17, 2003, N196**"THERE HAS BEEN FOUND A TURKISH
JOINT GRAVE IN THE VILLAGE
OF GEDIKLI, IGDİR"**

This story of "joint graves" is the ploy of the Turkish propaganda-show. However, everybody has gotten used to these kinds of plays in the world. This kind of ribaldry can leave no impression on people. The invisible powers of the world and their organization have always made out stories of this kind, and the responsibility of spreading false rumors lies with them. That organization used this ability to destroy the Yugoslavian Union. First Milloshevich was rumored to have killed and buried Albanians in joint graves, then he was said to have done ditto to the Bosnians. However, after America destroyed Yugoslavia, nobody found anything of the kind. In order to prove those falsifications, they implemented a "Hollywood Scenario" taking out bones from old graves and showing them to the world. Now America is trying to implement a new scenario in Iraq. They said to have found, joint graves of those, who had been killed by Saddam, but a few days later they denied the information, because neither the graves nor the corpses had been found. Unfortunately, false news can make an impression and exert influence on poor and stupid brains. You might know the saying, "Go on slandering. Slanders don't disperse completely. A bit of it will certainly stay in memory". Now you, Turks, are putting on an act that you have found "joint graves" of Turks killed by Armenians in IGDİR. Go on digging and digging. You will certainly find something. You cannot succeed in finding corpses, but instead you will certainly find the ruins of the Armenian civilization in the lands stolen from them.

N 62

"NAIRI", July 1, 2003, N197

THE EXCLUSIVE MONOPOLY OF THE SHOW "JOINT GRAVES" BELONGS TO TURKEY

Do you know why?

The Turks were the first who used that trick against the Greeks in Cyprus in 1976. In 1974, the Minister of Foreign Affairs of the USA was HENRY KISSINGER and the Premier Minister of Turkey was ECHEVIT who had been KISSINGER'S student in college. KISSINGER ordered ECHEVIT to invade Cyprus in 1974. Thus in July 1974, the Turkish military forces intruded Cyprus and occupied at least half of its territory. Due to the so-called "Action of Peace", thousands of Greeks were killed or were lost.

The foremost consultants of Turks of that time were concerned about Turkey's digestion, in order to help them digest Cyprus, and made out the story of joint Turkish graves to justify their actions. The agents of the organization of the financial barons in the world, who have always been the foremost ally of Turkey, bribed some TV officials in Switzerland, and a group of those officials went to the part of Cyprus, which had been occupied by Turks. There they performed a show affecting to have found joint Turkish graves full of corpses killed by Greeks. They shot a film about those graves, and when they returned to Switzerland, they showed it on TV.

We happened to be in Switzerland in 1976, and we saw the film on TV about the graves full of the "Turkish corpses" and felt very sorry. The Greek authorities had a hard time because of those graves. They appealed to the UNO which allowed an international committee to visit the Turkish part of Cyprus to investigate the problem. Now let us see how that show came to its end.

The International Committee observed the corpses in those graves and noticed that the corpses of men had not been circumcised, and most of them had crosses on their chests. The International Committee submitted a report to the center of UNO. There it was written, "Those corpses were not Turks, and they were Christians."

Now do you understand why we say that the exclusive monopoly of the joint graves belongs to Turkey?

AGBNAR FROM KILLIS WILL GO ON
TRIAL FOR HAVING ASKED QUESTIONS
CONCERNING
THE ARMENIAN GENOCIDE
PUBLIC PROSECUTOR CLAIMING
INCARCERATION IN PRISON
FOR THREE AND A HALF YEARS**

What has this teacher asked?

During a discussion held against the Armenians' "unfounded assertions" regarding the Armenian Genocide, the teacher asked two questions:

1. Has the government formulated a special policy towards the Armenians' assertions regarding the Armenian Genocide?
2. Did the Turks kill eight thousand Armenians?

Dear Teacher!

You are badly informed about "the reality". Don't you know that no Armenians have been killed? Instead, a great number of Turks have been killed by Armenians.

While this propaganda is on in every Turkish school, how dare you ask about the massacred Armenians!

How could you commit such sabotage? The public prosecutor of Killis has the right to arrest you.

O.K. let us stop kidding.

Dear HIULLEA AGBNAR!

We really congratulate you on your being brave enough to ask these questions.

Once in October 2000, they arrested an Assyrian from

TIGRANAKERT, YUSSUF AKBULLAD, only because he had said, "The Armenian Genocide has really taken place".

Now when another brave person from KILLIS, HIULLEA AGBNAR wanted to know the truth, they are going to convict her for it.

Nevertheless, the truth will certainly be revealed. You, fascist Turkey, you are playing your game under the mask of democracy. In fact, you are the most despotic and occupant fascist country in the world. You are worse than the States of Chingiz Khan or Tamerlane. They collapsed soon. Hope the same will happen to you.

TURKISH DEMOCRATIC THEATRE

In our publication from July 15, 2003, we called Turkey, "You fascist country, you are playing your game under the mask of democracy".

Now we would like to display an extract from the publication in "DIE WELT" by N. Plum, former Minister of Labor in Germany, who has been Helmut Kohl's right hand. The publication confirms the diagnosis we have made regarding Turkey in "NAIRI". N. Plum first blames Turkey for its adventurism on the subject of Iraq. He calls Turkey bifacial. "Turkey shows its friendly face to Europe with its places of interest in Polis. However, that friendly face turns into a demon like face in the eastern part of Turkey, in the mountainous regions near the borders of Syria and Iraq. That demon spreads tyranny, chaotic situation and corruption there." Then the author adds, "Turkey can't enter the European Union".

We'd like to answer Mr. Plum.

Dear Mr. Plum!

It is known that you have suffered a lot of the Turkish brutality.

Did you understand the Turkish nature just now?

Where were you hundred years ago when the Armenians were being massacred?

Germany and Turkey were fellow soldiers then.

Your generals, particularly VON DER GOLTS PASHA, general LIMAN VON SANDERS were in Turkey when the Armenian Genocide was being committed in 1915.

They didn't even lift a hand to save the Armenians. Contrarily, they were happy to get rid of the Armenian nation, which had always been the Russians' true friend. Thus, the Genocide would open the way to Baghdad for your country. After all, you say that Turkey is a demon.

However, wait about and you will have to suffer from them too. The number of Turks /seven millions of Turks in Germany now/ will increase to 20 million in ten years. Then you will really see what demons they are.

TURKEY A STATE BASED ON LIES FROM A TOZ

Sometimes we ask this question to ourselves. How could the State based on lies stay alive, and how it happened that it did not collapse? Moreover, it goes ahead in the world.

Look at the map and you will certainly find the answer there.

The stupid western countries have been fighting against Russia for more than 200 years in order not to allow it to advance to the Mediterranean Sea.

Why did those stupid countries forget the fear spread by the Ottomans in 1683 in front of the gates to Vienna?

Why did they forget those brutal massacres so soon and why did they establish the false State of Turkey, a substitution for the Ottoman Empire.

They did it, because they wanted to use Turkey as a shield against the Russians.

Who stands behind this false Turkish State?

There stands the international organization of the financial barons of the world. And due to them, the dying Ottoman Empire in 1918 regained and turned into today's Turkey with population of 65 millions. The substitute of the former Ottoman Empire of murderers now is the "civilized" cut-throat Turkey that intends and pretends to join the European Union. This is also happening due to the organization of the financial barons of the world.

In 1683, the Ottoman tyrants couldn't reach Vienna due to the Christian united armies, while now the Christian faith in Europe; the European "spirit" is perished and is playing dead.

Who is responsible for it?

The international organization of the world financial barons and their programs lie with it.

Turkey, which is the phantom of the Ottoman Empire and the State of today's cutthroats, will easily succeed in taking Europe in 50 years. It will certainly happen due to the international organization of the financial barons of the world and their programs.

**COMMENTARY ON THE TRANSLATION
OF KEMAL YEALCHIN'S BOOK
"MY HEART FROLICS FOR YOU"
INTO ARMENIAN**

Can the translation of this book be edifying for Armenians? No, it can't.

The Armenians who live outside Turkey or throughout the world, especially those who survived the Armenian Genocide of 1915 and their relatives are completely aware of the dreadful events, which took place during the horrible massacres, and they don't need the facts described in the book by YEALCHIN. That is why there is nothing new for them to learn in this book. Instead, the book is instructive for the Turkish people, as it tells about the forbidden subjects in Turkey. Unfortunately, as the author mentions, thousands of books were destroyed in C.Polis in 2002, by order of the fascist Turkish State.

KEMAL YEALCHIN, being a Turk tenders his apologies / without using the word "genocide"/ for the dreadful massacres committed by the Turks against the Armenians. However, KEMAL YEALCHIN'S apologies are needless, because the fascist Turkish state didn't allow the Turkish people to read the single book published in Turkey "My Heart Frolics For You" and ordered to destroy all the copies of the book. Now as a counter attack, in order to veil the truth of the Armenian Genocide, the same Turkish State is affecting that "joint Turkish graves" are found in Igdir and is blaming the Armenians for organizing massacres against the Turks in 1917. Those human ideas and wishes, expressed by KEMAL YEALCHIN, serve no purpose if the fascist Turkish State possesses this kind of mentality. We are naturally

grateful to KEMAL YEALCHIN for the realistic descriptions of the Armenian Genocide and for his wishes of goodwill. If this policy of denying the fact of the Armenian Genocide lasts long, the sweet words of some Turks will only serve for lulling the Armenians. In 1850, the stupid Armenians believed in the false "TANZIMAT", and they became even more Ottomans than the Turks were. The naïve Armenians believed in "the tales of Hurriet" of the party ITTIHAT and TERAKKI in 1908. The Armenian monks hugged with the Moslem imams and became brothers then. The so-called "brothers" subjected the Armenians to the genocide in 1915. After all those massacres that the Armenians went through in 1915, the Armenians haven't changed their naïve mentality. Being pushed by the international organization of the world financial barons, some Armenian leaders are negotiating with the Turks in order to find edges of reconciliation. These kind of infantile leaders trust in sweet promises of the "kind" Turks and are dreaming of becoming brothers with them again. There is a famous proverb, which says, "It is stupid to try something, which has already been tried". A very famous Armenian singer without having deeply thought about the matter declared: "How did the Jews become reconciled with the Germans, the Armenians will do the same with the Turks". We would like to tell some facts to this singer and ask whether he is aware of the terms of that reconciliation.

1. In 1945, all the Germans, who were responsible for the death of millions of Jews, were punished. The leaders were sentenced to death through hanging;

2. The Jewish massacres were recognized as a HOLOCAUST against the humanity. The information sources in Germany have been informing the facts of the HOLOCAUST since 1945;

3. Germany has been compensating the Jews billions of dollars since 1945 up to now. The Jews have founded Israel and have been fighting against Arabs due to those billions.

We would like to ask this Armenian singer whether we should reconcile with the Turks who stole our Motherland of 3000 years, as the Jews did with the Germans. Can the Armenians could the Turks to agree with at least one of these terms? The Turks don't accept that the Armenian Genocide has really been committed and they will never accept it, because the day they will accept the truth, the Turkish state will burst like a soap bubble. However, we have high hopes only for Russians. Only the Russians can destroy the State of brigands and killers, the State, which is a spot on the face of humanity. Let us wait about in hope.

THE MYSTERY OF THE SO-CALLED TURKEY

All the states in the World have adopted a law according to which all the archives will open up in 50 years, and the documents preserved in that archives will be publicized. However, there is only one exception. It is the State of Turkey. Only the archives of Turkey will not be accessible to people, because the so-called Turkish State has put the archives under a ban. If the archives open, all the secrets of the false Turkish State, made of nothing, will be revealed. If the archives open, those who have organized the Armenian Genocide in 1915 will be recognized. If the archives open, those, who saved the "Sick Man" Ottoman Empire and founded the so-called Turkish State instead of it, will be recognized. If the archives open, humanity will learn that MUSTAFA KEMAL came to power in the Conventions of 1919 in SIVAS and ERZRUM by the help of the Khojahs and the Sheikhs. Then in 1923, he killed some of them then some were exiled or put under arrest. If the archives are disclosed, it will come to light that MUSTAFA KEMAL assuring the Soviets to be his true friend, and the enemy of the western countries snatched great deal of weapons and money from him. The same MUSTAFA KEMAL turned his back to the Soviets after terminating the communists and the Greeks in 1923 throwing them into the sea.

If the archives open, it will come to light that in 1919, MUSTAFA KEMAL massacred the Greeks of Pontus, who were the natives of those lands. Everybody will learn that in 1921 he let the French people leave ADANA and the Southern states secretly, providing their safety, after which he massacred all the Armenians and Assyrians leaving in ADANA, MARASH, ANTEP, URFA and MARTINI. The Turks must be very grateful to MUSTAFA KEMAL who terminated millions of Greek, Armenian and Assyrian Christians that had been leaving in the cradle of Christianity and civilization Anatolia for 3000 years, created a Moslem State in Anatolia, the whole population of which are Moslems now. However, what is primary for us is to know who was standing behind and supporting Mustafa Kemal.

THE STORY OF MY LIFE

I was born near the sea, in one of the most fascinating villages called FLORIA, not far from Polis, in 1924. The farm where I was born belonged to TATIAN, the famous founder of the first gunpowder factory in Turkey. My uncle and father having had to leave SILIVRI had rented the farm from the relatives of the TATIANS. After a while, MUSTAFA KEMAL expelled us from that very farm, and built a palace by the sea for himself. He conveyed the farm to his people. We rented another farm of the TATIANS, not far from MAKRIGYUGH. Most of the lands around there belonged to the TATIANS, because the Turkish Sultan had presented him all the nearby lands in reward for the foundation of the gunpowder factory. I spent my childhood in those farms and learned to appreciate the beauty of the nature there. There I also learned about the hardships of the peasants' work in the hot summers and cold winters. I owe the love for nature and the respect that I have towards hard workers to my life in those farms.

I received my elementary and secondary education in PEZAZIAN college of MAKRIGYUGH. There a Turk examiner taught us lessons of being Turks. He used to say, "In Turkish "ER" means "brave" and "MEN" means "a man". In Turkish, the word "ERMENI" means "a brave man". Thus, it means that the Armenians are Turkish."

We used to believe in that kind of their Turkish dotage then. Even when MUSTAFA KEMAL died, we were weeping the day we learned about it. The Turkish teachers, especially in Armenian schools, were permanently teaching that the Armenians were Turkish. Growing older, I opened my eyes to the truth and began realizing everything. After a number of years, I became conscious of the Armenian Genocide. I continued my education in Austrian college in Polis and graduated from it in 1944. Then I entered the Medical University, because I wanted to become a doctor, as my uncle was, as I was an ardent fan for my uncle RUBEN SEVAK. However, eagerness is one thing and ability is another thing. I used to feel faint when seeing blood. Thus, I couldn't become a doctor and had to leave the University. I started to work as a clerk at a merchant. In 1946, after the war, the Armenians wanted to immigrate into Armenia to get rid of Turkish brutalities. A great number of Armenians, rich and poor, went to the Embassy of the Soviet Union to be registered as immigrants. So one day, I too, went there and did the same. On my way back home I noticed somebody chasing me until I

REALITIES "UNKNOWN" TO TURKS

reached my house. Then I found out from our neighborhood authority that the person chasing me had been a Policeman. He had made an inquiry about me. After that day I was in fear. Unfortunately, the Armenians from C.Polis couldn't immigrate to Armenia. I couldn't either. After that, I was busy working for a living and years passed by.

I survived the tragedy of September 6-7, 1955, in C.Polis. Until then, I had learnt about the Turks and their dirty deeds from my family and the books I had read. However, in September 6-7, 1955, I became completely convinced that they were savage and wild. That very day I made an oath not to live there anymore. Eventually, I left Polis. I left "the Polis", which had been the cradle of Christianity, and "the C.Polis", which had become the grave of the Christians. I have been living in Europe for thirty years. I have been living here free of Turkish fear and completely independent. Sometimes people ask me about my age. I answer, "I am thirty years old", I say. The person who asks the question usually gets confused and is not able to understand what I mean. Yes, I say, "I am thirty years old," because thirty years ago I left Polis, being a Turkish Armenian. Fortunately, I was reincarnated in Europe thirty years ago.
